A DYING STATEMENT.

No Clue as Yet to the Unknown Shooter.

KILLED BY HIS OWN GUN.

The Tennis Tournament at Santa Monica—Yesterday's Scores of the Players.

There are no new developments in the mysterious shooting of Bernhard Weyermann, which took place early yesterday morning. The unfortunate young man is lying at the point of death, and has but little chance of recovery. Several members of the detective corps are at work on the case, but as yet have accomplished very little, as it is impossible to obtain much of a clue from the meagre evidence which is afforded. Two men, John F. Flynn and M. Traynor were arrested as suspects in the course of the day, but nothing could be proven against them. Dr. Choate succeeded in removing the bullet which is from a 34 calibre revolver. It was taken out from the man's back, having passed clear through his body. As symptoms of peritonitis have shown themselves it is probable that the bullet passed through an intestine. With a probabilty of death before him the young man gave the police the following statement of the affair: I, Bernhard Weyermann, believing that I will die from the gun-shot wound received this day, make my dying statement of the facts connected with the shooting. My name is Bernhard Daniel Weyermann. I will be 21 years old the 12th day of November. I was born in Louisville, Ky. I am a shoemaker by occupation. I left my home a few minutes before 8 P. M. on the evening of August 20 with my father and brother Arthur to go to the Gambrinus Hall as an invited guest to the birthday party given to Mr. B. Levy, arriving there about 8:15. I did not stop on the way. I remained there until 1 A. M., in company with my brother and father. I had no altercation, words or trouble with any one. Gambrinus Hall is at 113 East First street. We came up First, turned into Main, went as far as Temple and turned up Temple street. My father, brother and myself were together all the time until we got to the corner of Spring street. I being in a hurry to get home walked ahead, leaving my father and brother some distance behind until I got as far as Fort street, where I sat down on the curb at the southwest corner of Temple street. I looked down the street and saw my father and brother about two blocks below on the south side of the street and I sat down to wait for them. I saw no one around or near me except my father and brother. Just before my father and brother came up to me where I was sitting I saw a flash and I felt immediately that I was wounded. I fell forward into the street. I was then taken into a hack and brought to my home. There is no trouble existing between me and any member of my family. I came here from San Antonio, Tex., during December of 1887. I never had any trouble with anyone. This is all I know about the shooting or the author of it.

BERNHARD D. WEYERMANN.

Witnesses: Theo. C. Metzler, James Choate, J. A. Van Luven.

THE TENNIS MATCH.

Mr. R. Carter Carries Off the Gentlemen's Singles.

The second day of the lawn tennis tournament at Santa Monica proved more interesting than the opening day, and some good playing accrued from the playing off of the Gentlemen's Association singles. It resulted, as was expected, in favor of Mr. R. Carter, of Santa Monica, who was matched against his brother, Mr. F. Carter, in the final struggle and defeated him easily. It was a pity that the San Francisco player, Mr. Tobin, was drawn against Mr. R. Carter in the opening round for it amounted to as much as a participation in the first heat. Mr. A. Wilberforce succeeded in playing his way into the last round where he met summary defeat at the hands of Mr. F. Carter. The ladies' doubles resulted in an interesting match, and though Miss Carter and Miss Schumacher were defeated they showed themselves to be adepts at the game. The mixed doubles brought Mr. J. R. Stone the Hercules of the South, into the courts. He was partnered with Mr. R. Lindsay, of Garvanza, against Messrs. Patrick and Birdsall, but failed to carry off the honors in spite of hard and good playing. The following is the result of the day's sport:

Gentlemen's Singles.

SECOND ROUND.

R. Carter beat K. Carter, 2, 6; 6, 3; 6, 4.
Wood beat Kinney, 6, 0; 6, 1.
F. Carter beat Waring, 6, 3; 2, 6; 6, 3.
Wilberforce beat Patrick, 6, 1; 6, 2.

THIRD ROUND.

R. Carter beat Wood, 6, 4; 6, 2.
F. Carter beat Wilberforce, 8, 6; 7, 5.

FOURTH AND FINAL.

R. Carter beat F. Carter, 6, 1; 6, 2; 6, 0.

GENTLEMEN'S DOUBLES.

Patrick and Birdsall beat Lindsay and Stone, 7.5; 6.2.
Kinney and Wilberforce beat K. Carter and Waring, 6.4; 6.1.
Saunders and Wood beat Wilshire and Tobin, 7.5; 7.5.
Bettner and Bowring beat Scharff and Channing, 6.2; 6.3.
R. Carter and F. Carter beat Patrick and Birdsall, 6.2; 6.2.

LADIES DOUBLES.

Mrs. Waring and Miss Gilliland beat Miss Carter and Miss Schumacher, 6.2; 6 3.

To-day the ladies' singles and the gentlemen's handicap singles will be played, and in all probability a few sets played in the all-comers' championship cup contest.

A Wandering Boy.

Daniel McDonald, a boy about twelve years of age, was arrested yesterday morning at 2 o'clock in East Los Angeles. He is said to be well known to the police as a very bad character in spite of his youth. He has been in the hands of the Boys and Girls' Aid Society, but there is no hope of reforming him. The boy pleaded guilty yesterday afternoon to the charge of being a wandering minor, and will probably be sent by Justice Austin to the County Jail, as the Boys and Girls' Aid Society will not take him.

THOSE THOMPSON GIRLS.

The Youngest One Rescued From a Life of Shame.

Officer Wright, of the Humane Society, yesterday afternoon went to Earl street and arrested Miss Julia Thompson, a 15-year old girl, and took her to Mrs. Watson's Home, where she remained last night. The arrest was made at the instance of the uncle and brother of the young lady, in order to remove her from the influence of an elder sister who is charged with being hopelessly incorrigible. These are the young women who figured in Sunday night's sensation on Earl street, a report of which appeared in the HERALD on Monday morning. An examination will be made today to see whether the circumstances warrant the detention of Miss Julia, or separation from her sister, in order to preserve the purity of her morals. There are several sensational features about the case which have caused much comment among the neighbors. The girls allege that they are subjected to persecution by their brother, who is a young married man, that he may get possession of their mother's property. It is alleged that the mother, who is a widow and at present lying helplessly ill in the hospital, owns a bank in Iowa, and other property, and this is what the young man is after. These accusations are, however, strenuously denied by him, and he claims that his only concern is the welfare of the younger sister, and that he would rather have a dagger plunged into his heart than see her follow in the path of the elder one. He alleges that the girls are in the habit of staying out suspiciously late at night, and have been seen in dangerous localities. The stories about the elder girl's escapades in this city, San Francisco and Omaha are highly sensational, and if all the statements made are substantiated in the examination to-day, Miss Julia will be placed where corrupting influences cannot reach her.

ACCIDENTALLY KILLED.

A Gun Goes Off and Shoots E. N. Stacey Through the Heart.

Ernest N. Stacey of Norwalk, was accidentally shot at Pasadena yesterday mornining by the discharge of a rifle which he was moving about in the bed of a wagon. He was loading some goods into the wagon and took hold of the gun, its muzzle toward him when he moved it. He was shot through the heart and died almost instantly. Coroner Meredith went immediately to Pasadena and held an inquest on the body.

James A. Stacey a resident of Artesia Township, and a hatter by occupation and a brother of the deceased, testified that he had loaded the rifle the night before intending to shoot rabbits along the road. When they set out to drive yesterday morning the gun was lying in the bottom of the wagon and the deceased took hold of it to shove it further toward the seat and it went off. The witness jumped off the wagon and caught his brother as he fell. He was dead in a few minutes before a doctor could be summoned. George Ralph, a resident of Pasadena and a cousin of the deceased, told the same story of the occurrence as James Stacey. The jury returned a verdict that Ernest N. Stacey, a native of Wisconsin, single, aged 27, came to his death by a gun shot wound inflicted accidently by a weapon in the hands of the deceased.

A WHITEWASH.

Ralph Demorest Refuses to Part With His Money.

Ralph Demorest, who keeps a cigar store on Sainsevain street, met with a peculiar experience last Thursday night. About half-past nine o'clock on that evening he was about to close and taking out his money bag he spread its contents on the counter and counted the coins. He then replaced the money and looking up he saw a man standing in the door with a white mask over his face and a revolver in his hand, its muzzle pointing towards him. The unwelcome visitor demanded Demorest's money, but he was not willing to part with it and hurriedly thrust it in his pocket and edging around the counter he sprang for the man who disappeared in the darkness. He has no idea as to who the man was.

Funeral of Robert Eugene Brodrick.

Yesterday afternoon a large number of sorrowful friends of Mr. and Mrs. J. W. Brodrick followed to the grave the mortal remains of little Robert Eugene, whose sad death was noted in the HERALD of yesterday. The pall-bearers were T. E. Rowan, J. G. Estudillo. W. Pridham and Dalton Wheeler. They were the same who had done the like mournful office for Mr. Brodrick's eldest son a week ago. There were a great many flowers sent in as tokens of regret by numerous friends. Mr. John L. McCoy, of Peck & McCoy acted as master of ceremonies in a most graceful fashion. The services at the Cathedral were most impressive.

Redondo Beach Hotel.

Reports are out to the effect that work will begin on the Redondo Beach hotel in a very few days. This is decidedly an announcement in the right direction. This section greatly needs a first class, large caravansary. In fact, its needs are not to be filled by one such. Redondo is on the beach, Los Angeles city should have another within the limits of the pueblo.

Undelivered Telegrams.

Undelivered telegrams at the Western Union Telegraph office, No. 6 Court street, at 10 P. M., August 21st: Mrs. H. C. Grant, Mrs. Jos. Jaynes, Mrs. Josep Huber, Hattie L. Parker, Geo. T. Beckets, Jno. W. Pearson, — Inglis, W. O. Dow, J. W. Thompson, Grestle Yerstman, J. R. Dwyer, Fred Whittaker.

"George, dear," said Mabel. "I thought you and papa were not good friends?" "Well, yes, that's so to a great extent, I am sorry to say." "Why, then, did you send him that great big, handsome bulldog?" "Why, did I send him that dog?" George smiled a tender, thoughtful, far away smile. "You see, dearest, that dog and I are old friends."—[Merchant Traveler.

LOCAL EVENTS.

What Will the Supervisors Do?

OPIUM SMOKERS CONVICTED.

A Republican Club Meeting—The Long Beach Elopement—Other Interesting News.

As the HERALD intimated yesterday, there are two burning questions in the old colony at Anaheim. One is the Wright Irrigation bill. Anaheim wants the bill applied to that district. The idea is to include in the operations of the bill substantially the area now embraced in the limits of the old water company. This would take in Yorba, Placentia, the Kraemers, North Anaheim, Orangethorpe, Anaheim and Fairview. The people are very generally in favor of coming under the requirements of the bill. It is hard to find a man in the territory named who is not at a white heat in favor of putting the district in line under the bill. A HERALD reporter has recently spent several days at Anaheim, during which he saw many people from all parts of that region. Outside of Yorba, he failed to find any one not in favor of going under the Wright bill. The people seem to have carefully studied the question in all its phases. They are almost a unit on the proposition. They think it would materially benefit them all, and surely they ought to be the best judges about that.

The bridging of the wash north of Anaheim is another matter in which the Anaheimers feel a very deep interest. Estimates are on hand by which two bridges might be constructed, one from East street in Anaheim to the Placentia road, and the other from Palm street Anaheim to Fullerton. The cost of the two bridges would be only $6,000. The viaducts would be on piles. It is understood that the Supervisors favor span bridges; but these cannot be constructed for the money available. The citizens say pile viaducts do for the railroad companies, and they do not see why such are not good enough to suit the taste of the Supervisors—most certainly these conveniences are greatly needed in the locality under consideration. The wash is two miles long, it is all soft sand, which renders hauling across it most difficult. Then Anaheim claims to have paid taxes into the county treasury for a longer period than any place outside of the City of Los Angeles, and to have got less in return.

These matters are to come before the Board next Friday, when a strong delegation of the solid people of the colony will be on hand to press their claims. They feel confident that they can make so good a showing that they will get all they ask for.

REPUBLICAN MEETING.

Addressed By Hon. Wm. Williams of Indiana.

The Young Men's Republican Club held a meeting at its wigwaum on the corner of Fort and Second streets which attracted a considerable crowd of people. Hon. J. W. McKinley presided and W. E. Dunn acted as Secretary. On the list of Vice-Presidents were: R. B. Carpenter, O. O. Trautwien, J. G. Dexter, W. S. Monroe, Major Geo. H. Bonebrake, W. F. Fitzgerald, E. F. Spence, H. Z. Osborne, Dr. McGowan, Chas. W. McFarland, W. N. Monroe, Fred. Gilmore, General H. H. Boyce, John Haynes, L. A. Sheldon, J. F. Hogan, and General H. G. Rollins. A number of songs were rendered in a creditable style by the Young Men's Republican Quartette. The speaker of the evening was the Hon. Wm. Williams an ex-Congressman from Indiana, who addressed the audience for nearly two hours in behalf of the party of which he is a member. He spoke chiefly upon the tariff maintaining that revenue reform and free trade were identical and that the way to get rich was to be willing to pay high taxes. At the conclusion of his remarks an effort was made to take a collection to help pay for the expenses of the meetings held by the club, which resulted in the prompt dispersing of the crowd.

Opium Smokers.

An opium smoking case was tried yesterday afternoon in Justice King's Court before a jury. Twelve unfortunate citizens were compelled to stand up for nearly two hours and listen to the evidence taken. The sufferings of a juror in Justice King's Court are of a sort to call for the interference of the Humane Society. Millie Wilson and Nellie Johnson was arrested on the 23d of July by Officers Lee and Bowland in an opium joint in Apablassa street, kept by a Chinaman named Ah Wen. The officers testified to having seen one of the women smoking, and the other preparing the opium. The women declared that they had entered the den merely to see the others smoke. The jury decided that the women were guilty, and they will be sentenced tomorrow.

Mings-Dodson.

The Nadeau Hotel at the hour of 9 this morning will be the scene of a very interesting event. At that hour and place Dr. B. B. Mings, of Gatesville, Texas, will wed Miss Mary Dodson, the only daughter of Mr. J. R. Dodson, of El Monte. The pretty bride is a native of Monte, where she was born 18 bright summers ago. She has been brought up there, and is a universal favorite in the community. The happy couple will leave here by the afternoon train for their new home in the Lone Star State. Many kind wishes will follow the young Los Angeles lady to her home, and if she is half as happy as her friends desire, no cloud will ever cross her path.

The Long Beach Elopement.

The young Mexican girl named Jesus Encinas, who eloped from Long Beach Sunday with Trinidad Estrado, was found Monday by Officer Arnaz living with her lover in a house on the other side of the river. It appeared on investigation that the girl had already borne a child to Estrado, but even this was not regarded by the mother as a sufficient reason why the marriage should take place. The girl refuses to return home.

THE DEMOCRACY.

The County Convention's Work Yesterday.

COUNTY OFFICERS NOMINATED.

Mathews Chairman, O'Melveny, Hutton, Kendrick Judges, Parcels Clerk, Rowan Sheriff.

Yesterday was big with the fate of the Democracy in this city and county. The County Convention assembled in Turner hall to nominate a county ticket. There were delegates from almost every precinct in the county. Far away Elizabeth Lake in the mountains, and one or two equally inaccessible points were the only ones which failed to be represented on the floor of the Convention. There were no less than 288 delegates present. They were a thoroughly representative body of men. There were few men in the body who do not stand for some interest in the precinct where they live. The country delegates were particularly encouraging. Farmers largely predominated; but there were merchants, lawyers and doctors from the rural districts. They are men whose names carry weight in their communities. They are respectable, self-respecting intelligent citizens.

Mr. Germain called the Convention to order in a very graceful manner, and during the preliminary deliberations of the Convention he presided with much tact, and his rulings were unanimously recognized as correct and fair. The county is well represented in the chairman of its County Committee.

The proceedings of the Convention, so far as it has gone, were characterized by a good deal of enthusiasm. It is a Democratic body and as such is decidedly in favor of free speech. There is nothing of the cut and dried order of business to be found in the hall. If a citizen has an opinion in his mind he is pretty sure to give it tongue and let his fellow-delegates know what he thinks. But there was little or no development of ill-feeling at any point in the deliberations had. The Chairman is a most pleasant and suave person, fair in his views, and disposed to do ample justice to all interests and to every individual. He is evidently unaccustomed to the work in hand, and not *au fait* in parlimentary rulings. A little hesitancy now and then on his part caused some temporary confusion on the floor. If the Chairman hesitates the Convention is apt to lose itself. With the exception of some little *contretemps* of this nature, the deliberations otherwise were orderly and decent. The nominations so far as they have been made and as reported below, are excellent. The men proposed for office are all able, sober, industrious and honest. The National ticket is much stronger in this section for the names put on the local ticket and it will tell in the November contest.

Some delay was experienced in calling the meeting to order and it was twenty-five minutes to eleven ere Mr. Eugene Germain, hairman of the County Central Committee, rapped on the table with his stick and called the Convention to order. The proceedings were opened by the reading of the call by Secretary Waters, after which the following list of delegates according to the returns was read, the gentlemen called responding to their names. The commencement of the Cleveland and Thurman rally, as advertised in the HERALD columns, was then read.

Major Blennerhassett presented a petition contesting the delegation from the Second Precinct.

Mr. Germain then announced that nominations for Temporary Chairman were in order, upon which J. Marion Brooks was nominated by Ben Edelman, Judge J. I. Redick by J. Bryson, Sr., Judge Dunnigan by Colonel Brooks of Pomona, and General J. R. Mathews by Z. B. West of Santa Ana, after which it was moved and seconded that the nominations be closed, and the question was put.

Mr. J. H. Brewer of Vernon, moved the vote be taken by the Chairman of the district and this was seconded by M. McFadden of Santa Ana.

Mr. J. Marion Brooks arose and said that he did not believe he had been here long enough to deserve the honor of the position for which he had been nominated and as the interest of the Democratic party was paramount to that of any single individual asked that his name be withdrawn.

Mr. J. H. Ryan of Anaheim, rose to second the nomination of General J. R. Mathews. "I have no friends to pay, or enemies to hurt," said the speaker, "I think that under the circumstances of the removal of General Mathews from the Brigadier-Generalship by Governor Waterman, it would be a good point for the Democratic party to place him in charge of the deliberations of this body as Temporary Chairman."

Mr. Wm. Vickery, of East Los Angeles, seconded the nomination of Judge Dunnigan, as did also E. A. DeCamp, of Cienega, and N. S. Embody, of East Los Angeles.

Mr. J. Marion Brooks said that there was one name that had not been seconded, and that was Judge Redick's. The time had come when such a man should be placed in the position. He would preside over the body with an eye single to the success of the Democratic party, and in addition to this he possesses a position in the community which entitled him to the honor.

Before the voting was commenced Secretary Waters called for two tally clerks, and this being moved, seconded and carried, Mr. Germain appointed Messrs. Bayard T. Smith and J. McCaffrey.

E. A. DeCamp said that as the Convention was here for business and not for pleasure, he asked that the voting should be done without speeches, and this was adopted.

Judge Morgan asked for a decision as to what would elect and moved that the majority of all votes cast do so, which was seconded by S. Prager and carried unanimously.

THE TEMPORARY CHAIRMAN.

The roll-call was then proceeded with and resulted as follows: Mathews, 158; Dunnigan, 103; Redick, 8. Mr. Germain therefore announced that General Mathews was elected Temporary Chairman and it was moved and seconded that this be declared unanimous which was adopted. Mr. Mathews was then called to the platform and said:

"Gentlemen—I thank you very much for the compliment you have paid me in appointing me Temporary Chairman. It will be my aim to give each and all of you a fair recognition so that we may all assist in putting up a ticket that will help out the grand old ticket, Cleveland and Thurman. I will at once proceed to business, and nominations for Temporary Secretary are now in order."

Mr. C. L. Hargitt placed in nomination one who he said was well able to fulfill the duties of the posi —Ben Edelman.

Mr. T. McCaffrey nominated A. Ramish, of the Fourth Precinct.

The nominations were then closed and Judge D. M. Adams moved that both nominees be elected by acclamation, and this action was unanimously taken.

Mr. Ryan, of Anaheim, said that in order to facilitate business he moved that the chair appoint committees on credentials, permanent organization and order of business to be selected two from each Supervisorial district outside of the city, and four from the city.

Mr. Morgan rose to address the meeting, but Mr. Keefe called for the appointment of a Sergeant-at-Arms, whereupon Mr. J. Marion Brooks moved a point of order, and called attention to the motion before the meeting.

A discussion then followed as to the number of the committee to be appointed and a motion by Mr. Brooks to the effect that a committee of twelve on permanent organization and order of business be appointed was carried unanimously.

Mr. C. Bell moved that a committee of ten on platform and resolutions be appointed, and this was amended to five by Dr. Kuhrts and carried unanimously.

Mr. C. L. Hargitt then moved the appointment of Sergeants-at-Arms and the following gentlemen were appointed by the Chair: John Malone, J. I. Filkins and L. T. Jacobs.

Judge Morgan moved that an adjournment of fifteen minutes be taken to give the Chair an opportunity to appoint the committees and this was unanimously adopted.

THE COMMITTEES.

On reconvening, the Chair announced the following decisions:

On Permanent Organization and Order of Business—J. Marion Brooks, chairman; J. Shawhan, W. H. Carlin, Z. B. West, J. C. Hannon, C. D. Reynolds, J. M. Voss, J. I. Redick, J. F. Patterson, H. C. Bailey, J. W. Swanwick and Wm. Vickery.

On Platform and Resolutions—C. A. Bell, chairman; Geo. C. Hagar, Dr. J. Kurtz, R. Dunnigan and J. B. Holloway.

On Credentials—J. H. Ryan, of Anaheim, chairman; J. W. Fryer, J. C. Jones, M. M. Newmark, J. C. Travis, M. C. Marsh, Chris. Hargitt, Sam Prager, S. A. Waldron and J. Marion Brooks.

While arrangements were being made for the meeting-places of the different committees, Judge Redick ascended the platform and thanked those who had voted for him for their recognition. He said that perhaps he was not as well known to them as some of the other candidates, but he trusted to know them better by-and-by.

Mr. Hill moved that adjournment be taken to half-past 1 and this was amended to 2 o'clock by Mr. J. Marion Brooks, and adopted.

The meeting then adjourned.

Afternoon Session.

The Convention was called to order shortly after 2 o'clock by General J. R. Mathews and at that time the hall was crowded to overflowing. The galleries, lobby, hallway and even the ante-room were filled with people interested in the proceedings. It was noticed that the audience contained many of the candidates nominated at the Republican county convention who were anxious to know who the next officers of the county are to be. There were also in the crowd the majority of the present county officials and some of the city officers interested in learning who their successors will be. Numerous friends of the various candidates were also present and watched the proceedings with great interest. Chairman Mathews requested the delegates from the various precincts to sit together. He also asked all delegates when rising to make a motion, to give their names.

Mr. Chas. Bell said that the Committee on Platform and Resolutions was not ready to report, and he asked further time on its behalf.

Mr. Morris moved that the request be granted, and that the Committee be given half an hour.

Judge R. Dunnigan on behalf of the Committee asked more time than that. The Committee desired to make a proper report, and could not do it in that time.

The motion to allow but half an hour was withdrawn, Mr. J. B. Holloway, of Rosedale, insisting that the Committee should have all the time it wanted to get up its resolutions.

Mr. T. A. Saxton, of El Monte, moved that the Committee be given all the time it desired. Carried.

THE CREDENTIAL COMMITTEE.

The Committee on Credentials reported as follows:

"We report in favor of seating T. A. Saxton, B. H. Padlock, T. C. Hannon, M. D. Mason, J. R. Rush, one vote each; J. Guess and A. C. Yeary, one-half vote each. In the contest of the second precinct of the First Ward, we report in favor of seating the regular caucus ticket."

Following is the list of delegates as passed upon by the committee:

Seventh Precinct—J. M. Brooks, A. F. Mackay, E. F. Boyle, W. A. Ryan, R. S. Ramsaur.

Eighth Precinct—W. H. Roper, Chas. Forman, Dan'l Einstein, John Bryson, Sr., J. I. Redick, John Maskel, Eugene Germain.

Ninth Precinct—B. Dozier, G. W. Craig, Chas. A. Bell.

Tenth Precinct—Thomas Kelley, E. Berman, C. E. Miles.

Mr. S. A. Waldron, of La Ballona, said that he had a minority report to make verbally. He desired to say in relation to the contest over the seating of the second precinct delegation that the committee had examined a dozen or so witnesses and that the testimony showed there was much irregularity at that precinct on the day of the primaries. He had proposed on this account, first that the whole representation be thrown out, but this was rejected. Then he had proposed that one-half of each of the contesting delegations be seated, but this was rejected, and he desired to say that the Oro Fino method of conducting the primaries should not be tolerated.

Captain A. F. Mackay asked for information if the Committee's report was full as regards all of the delegations. He had heard reference only made to the delegations when there was a contest.

Mr. J. H. Ryan, of Anaheim, said that the committee had examined all the documents that had been placed in its hands. If there had been any oversight it was unintentional and would be rectified.

Judge Morgan moved that the report be referred back for completion.

Mr. Hill, of Santa Monica, moved that the report of the Committee be accepted. Lost,

Mr. M. C. Fordham moved that the names on the roll, as read by the Secretary of the County Central, be added to the report of the committee.

Mr. T. McCaffrey called for a roll call on the question.

Judge Adams, of Garvanza, asked for information in relation to charges that had been made as to the conduct of the primary at the second precinct.

Mr. J. Marion Brooks explained that the only question before the house was whether the delegates from the second precinct were entitled to seats.

Captain Mackay called for the reading of the report, which was done by the Secretary, and after a short discussion as to the advisability of sending the report back to the Committee, it was adopted as amended.

Mr. Blennerhassett, one of the contesting delegates, demanded to be heard, but the Chairman ruled that he could not be recognized unless so desired by the Convention. The Convention decided that Mr. Blennerhassett should not be heard.

The following is a full list of the proxies: Abbot Kinney to C. D. Curtis; T. Dupuy to A. Lindenfeld; T. M. Coulter to M. P. Snyder; J. B. Cullen to W. H. Guinn; W. H. Tedford to Geo. E. Cotts; G. W. Craig to B. Dozierr A. Carter to J. H. Dodson; D. W. Lyon to J. C. Joptin; P. Ballade to J. K. Ahearn; A. Sentous to John Moriarty; D. J. Yorba to V. Yorba.

ORDERS ADOPTED.

Mr. Eugene Germain moved that all who were not delegates be kept behind the rope which had been stretched across the room. Carried.

Mr. E. A. De Camp moved that no delegate be allowed to speak more than once and that no speech be more than of three minutes duration.

Mr. M. Morris moved that "without the consent of the Convention" be added to the motion. Accepted and the motion was carried.

Mr. T. McCaffrey moved that the Secretary call the roll and that the delegates deposit $1 each with the Secretary.

This was deferred until after the order of business had been adopted.

ORDER OF BUSINESS.

The Committee on Order of Business reported as follows through its Chairman, Mr. J. Marion Brooks:

The Committee on Order of Business recommends that the temporary officers of the Convention be made permanent, and that the nominations be made in the following order:

Two Superior Judges for the long term.

One Superior Judge for the short term.

County Clerk.
County Auditor.
County Recorder.
County Tax Collector.
District Attorney.
Sheriff.
County Treasurer.
Public Administrator.
Coroner.
County Surveyor.
State Senator from the 39th Senatorial District.
Assemblymen from the 76th, 77th and 78th Districts.
District, Township and County officers.

Further recommended that after the nomination for Surveyor the Convention divide into District Conventions for nominating the other officers and that all ballots be by roll call and that the chairman of each delegation announce the vote of his precinct. That each delegate pay $1.00 toward the expenses of the Convention.

A motion that No. 8 in the list of nominations for Sheriff be changed to No. 3, was accepted by the mover of the motion to adopt the report.

Mr. T. McCaffrey moved that the candidates for nomination be assessed $5.00 each. Carried.

Mr. J. M. Voss, of Rosedale, said as a member of the Committee he desired to state that in his opinion the contest over the nomination for Sheriff was the leading contest before the Convention and the Committee considered that in order to hold the interest of the delegates it was best to place that nomination toward the last of the list. He could see no reason why the nomination of Sheriff should be placed at the head.

Mr. J. A. Brewer said that he conceded the fact that the nomination for this office was one of the most important but he wanted no jobbery, and if it was placed No. 8 in the list, it gave a chance for jobbery. He was in favor of placing it as No. 3.

Mr. J. M. Shawhan of Pasadena, said that in the Committee he had proposed that the nomination for Sheriff be placed last on the list. A compromise had been effected so as to place it where it was in the report. The Committee had been actuated by nothing except a desire to promote the best interests of the Convention.

Judge Redick was surprised that Mr. Brewer should think jobbery was possible in the Convention.

Mr. J. M. Brooks said that the report of the Committee had not been made in the interest of any one candidate, but in the interest of the party that had ruled the country for four years and would rule it for four years more. He believed that other nominations were as important as this one.

The question was then put as to whether the motion should be adopted, and it was declared lost.

Mr. W. W. Jenkins then moved that the report be accepted and the Committee be discharged. Carried.

There was some question as to whether the adoption of the report carried with it the change of plan for the nomination of Sheriff, the original mover of the motion to adopt having accepted the motion to amend, but the Chair ordered the nomination called in the order presented by the Committee.

The Secretary then called the roll, and the delegates responded with $1 each.

Judge Adams, of Garvanza, moved that the Chairman appoint two Vice-Presidents. Carried.

General Mathews appointed as Vice-Presidents Judge R. Dunnigan and Judge J. I. Redick.

The Convention decided that a proxy could not be held by a person not a delegate and a resolution as follows was adopted:

Resolved, That delegates leaving the Convention may give a proxy to a member of his delegation and that in case no proxy is given the delegation may vote for him.

SUPERIOR JUDGES.

General Mathews then declared that nominations for Superior Judges for the long term were in order.

Mr. Mr. Fordham rose and placed in nomination Judges H. K. S. O'Melveny and A. W. Hutton.

Judge Redick placed Judge W. P. Gardiner in nomination with a few complimentary remarks. Judge Adams seconded the nomination of Judge Gardiner. Captain Mackay approved of the nomination of Judge O'Melveny and thought that his name would add strength to the ticket. Wr. W. F. Heathman seconded the nomination of Judge A. W. Hutton, who he said was bound to be elected if nominated.

Dr. J. D. Baker also seconded the nomination of Judge Hutton.

Mr. J. M. Brooks seconded the nomination of Judge Gardiner, who, he said, was a tower of strength.

Mr. E. A. DeCamp moved that the nominations closed. Carried.

While the Secretaries were getting ready to call the roll, some one placed the pictures of Cleveland and Thurman on the platform, and for five minutes cheer after cheer rolled up.

The roll call resulted as follows:

H. K. S. O'Melveny	220
A. W. Hutton	183
W. P. Gardiner	104

General Mathews announced that as Judges O'Melveny and Hutton had received the highest vote, they were the nominees of the Convention.

A motion to make their nomination unanimous was carried.

A question was raised here that there had been no choice, but Mr. J. W. Swanwick, on behalf of Judge Gardiner, said that he was satisfied, and the nominations were declared unanimous a second time.

Mr. Hill moved that the Convention nominate Judge Gardiner for Superior Judge for the short term.

Mr. Swanwick said that Judge Gardiner desired him to thank the Convention, but to state that he could not accept the nomination.

Mr. J. Marion Brooks then placed Hon. J. D. Bethune in nomination.

Mr. G. D. McCaige placed W. T. Kendricks' name before the Convention.

Judge Adams seconded the nomination of Mr. Kendrick, and Messrs. Z. P. West, of Santa Ana, and J. C. Morgan, of Santa Monica, seconded that of Mr. Bethune.

The ballot stood as follows:

W. T. Kendrick	175
J. D. Bethune	109

The nomination of Mr. Kendrick was then made unanimous.

THE PLATFORM.

Mr. C. A. Bell then read the following platform, which was unanimously adopted, and was signed by the whole committee.

Your Committee on Platform and Resolutions respectfully report as follows:

The Democratic party of Los Angeles county in convention assembled hereby re-affirms its devotion to Democratic principles as enunciated in the State and National Platforms adopted at the Democratic State Convention of May 18, 1888, and at the National Convention of June 7, 1888.

We cordially endorse the administration of President Cleveland, and we especially commend the doctrine laid down in his message of December 6, 1887, in which he points out the necessity of a revision of the tariff in the interest of labor, and clearly demonstrates that this revision is essential to prevent the accumulation in the Treasury of large sums of money now needed for circulation among the people.

We denounce the cry of the present Republican managers that the Democracy is in favor of free trade as insincere and unfounded. The measure proposed by the Democratic majority in Congress reduces the present tariff schedule less than seven per cent., and this reduction is all in favor of labor and at the expense of greedy and unscrupulous monopolies. We believe in reducing the cost of the necessaries of life. We do not agree with the Republican party that expensive clothing and cheap whisky will result in the nation's happiness. All the monopolies and the Trust combinations of the United States, against whom labor has been forced to combine, are opposed to the policy of our party. The Democracy has espoused the cause of labor, and is prepared to defend its interests against those who are seeking to enslave it.

For years the Democracy alone contended for the exclusion of the Chinese. For years it met an unbroken opposition from the Republican party; but the Republican management, anxious to deceive the people, now pretends to favor the Democratic doctrine upon this subject; but it has nominated for the Presidency a man who voted to naturalize Chinamen, and who opposed every effort to restrict Chinese immigration. It has nominated as a candidate for Vice-President an English broker, who, until after his nomination, was a director of and still remains a stockholder in a British railway corporation which looks to Coolie importation for its principal profit.

We denounce the Republican Assessor of this county for his willful violation of the duties of his office. He has, in obedience to the dictates of large and wealthy land owners, estimated the property values in such a manner as to throw the burden of taxation upon those in moderate circumstances and to relieve the wealthy from the payment of their rightful obligations. In compliance with the miscalled protection doctrines of his party, he has discriminated in favor of those against whom the public need protection, and against the more worthy and less favored. Experience has not improved the management of this Assessor's office. The present roll, as compared with that of the past year, discloses the fact that while he has reduced the taxation of those who are possessed of vast estates, yet the aggregate assessment has been increased, and that this increase has been made at the expense of that portion of our population which is least able to bear it.

We are in favor of, and hereby pledge our legislative nominees to such action as will so amend the lien law so as to afford absolute protection to mechanics and workingmen at a reasonable expense.

The formation of trusts and combines for the purpose of arbitrarily raising the price of lumber, building materials and the necessaries of life is detrimental to the public welfare. The cost of such articles should be regulated alone by the laws of supply and demand. We therefore pledge our legislative nominees to enact such statutes as will prevent such trusts and combinations.

We are in favor of making eight hours constitute a full day's labor on all county and municipal work.

We are unalterably opposed to all sumptuary legislation.

We denounce the conduct of the present Governor of this State in removing and attempting to remove from office, worthy and competent citizens appointed by Governor Bartlett, and against whom no stain nor suspicion has ever attached, and no charge of incompetency been made. We call upon the Senate of this State to refuse its concurrence in this unjust action.

A motion to adjourn until 9 o'clock this morning was here proposed, and was amended to adjourn until 7:30 o'clock P. M. Both the amendment and original motion were lost.

Mr. De Camp moved that the Convention proceed to business, but at this moment

LIEUTENANT-GOVERNOR S. M. WHITE

Was observed in the hall, and the whole audience called upon him for a speech. He said that he desired to raise a point of order, that his speech was not in the regular order of business. After standing a long time in the lobby he had concluded that he would find a place where he could keep a tally and had not intended to be seen or called upon. He thanked the Convention, but said that as the delegates were there to do business he would not take up their time. He said that every Democrat was well aware that there never had been a time in the history of the county when the Democratic party represented the people so much as now. During the campaign its members would be confronted by falsehoods in the Republican papers, which would say that the policy of the party is free trade, and yet not one of those papers would believe what it said. He urged the Convention to place the strongest men in the field, and by so doing the ticket would not only carry the county but the State for the Democracy.

Judge Dunnigan was called to the chair and after stating that there was no need for him to discuss the issues of the day, announced that the third matter in the order of business was the nomination for

COUNTY CLERK.

Mr. J. Davidson, of the First Ward, said that he rose to put in nomination one who was so strong that he would carry the county over the head of a popular candidate on an opposition ticket. He named for the place Mr. H. S. Parcels. Mr. Saxton seconded the nomination and Mr. Shawhan moved that Mr. Parcels be declared the nominee of the Convention by acclamation.

Mr. Parcels having been called forward thanked the Convention and promised to support the ticket.

COUNTY RECORDER.

Nominations of County Recorder were then declared in order, and Mr. George Englehart, of Sepulveda, placed B. A. Lugo in nomination.

Mr. C. Behrens placed the name of Louis Vignes before the Convention.

Mr. J. Marion Brooks placed Mr. C. E. J. White in nomination.

All those candidates advanced to the platform and endorsed the platform.

The vote after balloting was announced as follows:

C. E. J. White	162
B. A. Lugo	61
Louis Vignes	56

Total vote cast, 281.

Necessary to choice, 142.

The Chair announced that Mr. White, having received the majority of votes cast, was the nominee of the Convention.

A motion to adjourn until 9 o'clock this morning was overwhelmingly lost.

Nominations for Recorder were declared in order.

Mr. J. M. Shawhan of Pasadena placed Mr. George Herrmann of Pasadena in nomination, stating that while Pasadena was Republican Mr. Herrmann would carry that stronghold.

The nominations were declared closed, and on motion Mr. Herrmann was declared the nominee by acclamation.

Nominations for County Tax Collector were declared in order, and Mr. S. Prager placed the name of Omri Bullis before the Convention.

He was declared the nominee by acclamation.

For District Attorney Judge Dunigan placed Judge J. R. Dupuy before the Convention.

Mr. Voss nominated Mr. G. W. Glowner, but Mr. Glowner withdrew and the nomination of Judge Dupuy was declared by acclamation.

A motion to adjourn to 9 o'clock this morning was decided by roll call, there being 167 against and 105 for.

FOR SHERIFF.

Nominations for Sheriff were then declared in order and E. A. DeCamp placed the name of T. E. Rowan before the Convention.

Mr. F. D. Iry nominated Justice B. E. Taney.

Mr. Z. B. West on behalf of Santa Ana seconded the nomination of T. E. Rowan.

Judge Redick placed Captain A. W. Barrett in nomination.

J. H. Ryan nominated Mr. T. J. Cuddy in a lengthy speech.

Mr. Brewer and Judge Allen seconded the nomination of T. E. Rowan.

E. F. Boyle nominated D. V. Waldron.

On motion the nominations were declared closed and the following was the result of the

No choice.

Captain A. W. Barrett's name was withdrawn by Colonel O. H. Violet.

It was moved and seconded that the Convention adjourn. As no gas could be secured a number of candles were brought in which dimly lighted the tables occupied by the reporters and secretaries. The vote to adjourn was defeated by 104 to 180. The room grew steadily darker until it was impossible to see the members on the floor. It was decided that the Chairmen of the delegations when they cast their votes should come forward to the Speaker's stand. The vote was then taken amidst almost total darkness. Just as the last district gave its votes showing the election of Rowan beyond all question the lights flashed up. The ballot was as follows: Rowan 209, Cuddy 34 and Taney 21.

The Chair declared T. E. Rowan the nominee, and on motion the nomination was made unanimous and the Convention adjourned till 9 o'clock this morning.

A Concert at the Arcadia.

A grand concert is to be given at the Arcadia, Santa Monica, on Thursday night for the benefit of St. Augustine's Guild of the city by the sea. The following programme has been arranged: Quartette, "Whippoorwill," Southern California Quartette; Violin solo, Mr. Schilling; Solo, Mr. Burton; Piano Solo—selected, Professor Wilde; Banjo Solo, "Ballyhooly," Mr. Seymour; Recitation, Rev. Mr. Judd; Vocal Solo, Mr. Hicks; Piano Solo—selected, Professor Wilde; Solo, Mr. Burton; Banjo Solo, "Carolina March," Mr. Seymour; Quartette, "Rock-a-by-Baby," Southern California Quartette.

Caught in the Car Tracks.

The new cable-car tracks were the cause of a buggy being wrecked yesterday afternoon on Spring street. Mr. Perley was driving his two-horse carriage in the direction of the Courthouse, and when in front of McGinnis' he pulled to the left to avoid an approaching car. The hind wheel of the carriage caught in the slot which runs between the two tracks, and was smashed to pieces, only a few of the spokes remaining intact. Luckily the horses were soon halted and no one was hurt.

THE RAILROADS.

An Interview with Mr. R. H. Pratt, of the S. P.

THE LINE IN GOOD CONDITION.

The Monrovia Road Carrying Passengers Directly to and from This City.

Mr. R. H. Pratt, Assistant General Superintendent of the Southern Pacific, arrived in the city yesterday on a special train from the East in his car "Buenaventura." Mr. Pratt was accompanied by Mr. J. A. Muir, the hard-working Assistant Division Superintendent, of this city, who had journeyed to Indio to escort the visitor on his way here. Mr. Pratt was seen by a HERALD reporter yesterday afternoon just before he departed for Santa Monica, where he passed the night, and from whence he will leave this morning for San Francisco.

"How is the road looking, Mr. Pratt?" asked the scribe.

"First-rate, much better than it was this time last year. It certainly ought to, for a good deal of work has been done on it and thousands of ties and miles of rails put in at the weak places."

"I understand you have a difficulty in obtaining ties," said the reporter.

"No, I think not; there was a statement made in one of the papers to the effect that we wanted three million ties and could not get them; but this is scarcely so, for as far as I know we have not been stopped in our operations on that account."

"How about steel rails; you are short of them, are you not?"

"When I left San Francisco we certainly had run out of such supplies but I do not know whether reinforcements have arrived. We want a good deal of steel for our line along the east side of the San Joaquin from Stockton to Poso. All the grading on that piece of work has been done but there are about 40 miles of track to be laid. We do not intend to complete our line along the west side of the San Joaquin at present—we have reached Armondale on the Huron branch and will stop there for a time."

"Are you getting much coal from the new mines west of Huron."

"Well, a good deal is being shipped over the road, but we are not using it, as it is not adapted for our requirements."

"Can you tell me when the Tustin City branch will be in operation?"

"No; beyond the fact that it is completed with the exception of some bridge strengthening I do not know what are the intentions regarding it. I suppose though that it will be turned over to the operating department shortly."

"Is the road well prepared for a heavy rush of business this fall?"

"Yes, we have made very extensive additions to our rolling stock and new locomotives have been coming in as fast as the Eastern shops could supply us. Two more will pass through El Paso tomorrow on their way West."

"How is business at present?"

"Very good, especially the overland traffic which is very heavy. There has, naturally, been a little dullness throughout the State during the summer season, but everything is picking up very rapidly now."

As the train was in waiting for Mr. Pratt, the scribe refrained from intruding further on that gentleman's time, and thanking him for the extreme courtesy he had shown throughout the interview, withdrew.

AN ENVIABLE RECORD.

Mr. Pratt is one of the most able railroad men on the continent. He was born at Freeport, Me., on August 2d, 1824. He came to the Pacific Coast at the time of the mining excitement, but becoming associated with the railroad kings in the days of their early efforts entered their service in March, 1865. Until 1868 he was foreman of construction of the Central Pacific road, and from October, 1869, to 1871, its superintendent of track. In 1871 he was appointed division superintendent at Salt Lake and held that appointment until 1878, when he was appointed division superintendent of the Sacramento and Oregon divisions of the Central Pacific and the California Pacific road and branches. On May 8th, 1881, he was appointed assistant general superintendent of the entire system and has held that office ever since.

RAPID TRANSIT.

The S. G. V. R. R.'s Connections All Made.

The Monrovia Rapid Transit road ran its own through connections from this city for the first time yesterday. As announced two days ago in the HERALD, a bus line has been established to connect with the present terminus of the rails at the Mission road, and this, starting from Arcadia street, mee's all incoming and outgoing trains. There are four trains each way daily, leaving this city at 7:40 A. M. and 9:50 A. M., and 3:10 P. M. and 5:20 P. M. Trains leave Monrovia at 7 A. M. and 9:10 A. M. and at 2:30 P. M. and 4:40 P. M. On Sunday there will be only two trains each way, the earliest and the latest named. The trip is made in one hour and the fare for the round journey is $1. On Monday afternoon the pioneer train was run, the cars leaving Monrovia at 3:40 P. M. The party on board consisted of General Manager Monroe, S. A. Monroe, Gen. W. A. Pile, J. M. Thomas, Rev. A. P. Graves, L. T. Graves, C. O. Monroe, J. W. Harvey, Frank Kasson, C. B. Clapp, L. Barnes, J. H. Battle, C. C. Hotchkiss and a number of ladies. At Mission Road, where the engine was turned, the Hon. E. F. Spence and Prof. M. M. Bovard joined the party and participated in the excursion, which all acknowledged to be a delightful one.

A branch line is being constructed from Ramona to Raymond and will be run on into Pasadena.

Pullman Passengers.

The following Pullman passengers left yesterday for San Francisco and the North:

By the 12:45 P. M. train—Mr. Bishop, Mr. Richardson, E. M. Cole, Mrs. Saiche, Mrs. Kennedy, H. Tuoney, Miss B. Smith, Mr. Mills; Mr. Edwards, Mr. Lewis, Mr. Sparks, S. M. Daniels, Mr. Felds, Mrs. Wood, I. W. Hellman, Jr., Mr. Gottschalk, Mrs. J. H. Caldwell, Mr. Olmstead, J. W. Jordan, R. Hunt, Mr. Wildur.

By the 7:30 P. M. train—B. S. Nichols, G. E. Homer, G. W. Lynch, S. P. Cooper, D. Freeman, Mrs. J. S. Young, Mr. Fourst, Miss Isom, S. F. Couts, S. White.

A New Excursion Line.

The Santa Fe people are going to run Sunday excursions to San Juan and San Juan by-the-Sea. They will doubtless be will patronized, as the ruins of the old Mission Church are full of historic interest. The fare for the round trip will be $1.50.

General Gleanings.

The C., B. and Q. office here is disposing of a good many tickets to the G. A. R. Encampment at Columbus.

Mr. D. M. True, the energetic representative here of the Pennsylvania system, has returned from his visit to San Francisco.

The cargo of ties for the Los Angeles C n y Railroad was floated to shore yesterday, and the steamer weighed anchor in the evening and left for San Francisco.

The Baldwin Locomotive Works is turning out some enormous engines, weighing 112,000 pounds each. They are for the seventy-two mile run between New York and New Haven, which they will make in eighty minutes.

The newspaper men were all glad to see Mr. F. J. Thayer back at his desk again yesterday in the freight department of the S. P. uptown ticket office. He has been passing ten days in San Francisco, and looks in remarkably good health after his trip.

The Pennsylvania road has been selected by the Grand Army to carry its passengers from Chicago and St. Louis to the Columbus Encampment. The visitors will be carried from St. Paul to Chicago by the C., B. and Northern, a part of the C., B. and Q. system.

The Drowning at Long Beach.

EDITORS HERALD—I have read the article on first page of the HERALD of this morning relative to the drowning of a young man at Long Beach Sunday, and it seems to me so unjust as to call for a protest. The charge that "the beach is a fine one although scarcely adapted for bathing purposes as the undertow is remarkably strong," is, in the latter clause, utterly unfounded. In a personal experience extending to every beach of note on the Atlantic coast, I have never encountered a surf where so little undertow is found as at the beach to which the charge refers; your reporter confounds undertow with current in this instance. A strong inward, outward or coastwise current will always be found in any surf where the conditions are similar to those prevailing along the unprotected coastline of North America and the current will run inward, outward or coastwise according to the tide—inward if a flood tide, outward if an ebb tide, or coastwise if the tide is at the point between ebb and flow. There was an extremely strong current at Long Beach on Sunday, as there doubtless was along the entire coast of California, occasioned by the very high tides that always prevail when the moon is nearest the earth. During the forenoon however this current was running inward and was so strong while the tide was flowing that it was very difficult to go out any distance against it; under such conditions surf bathing is absolutely safe. But the young man who lost his life went in about three o'clock in the afternoon at ebb tide, and undertook a feat that is dangerous (except for expert swimmers) at any time; namely, to go out to the floating buoys—the swim was too much for him to make against the current, as it was then running out, and having gone beyond his depth of course there could be but one result. No writer whose utterances will tend to injure a place in the minds of unthinking people should rush charges into a newspaper that are based on illogical grounds. A little inquiry among the bathing habitues of Long Beach would have placed your writer in possession of the true theory of the two recent drowning accidents there. Then had he confined his strictures to a criticism of the imbecile management of the Long Beach bathing privileges, that, not content with anchoring two small buoys so far out as to render it extremely dangerous for any but expert swimmers to attempt to go the distance; also lets out bathing suits during a strong ebb tide, he might have been the means of preventing further disasters of a like nature to that under discussion. Sincerely yours,

C. H. ROBERTS.

☞ THE ILLUSTRATED HERALD is now on hand at this office and for sale at the extremely low price of 15 cents each, or eight copies for $1. The current number has a vast amount of fresh statistical matter of great interest regarding this section. The ILLUSTRATED HERALD of 1888 is by all odds the best medium through which to make known to those at a distance all the varied attractions and industries of Los Angeles and of the semi-tropics generally. If you want to keep up the boom send a copy of this splendidly embellished publication to your friends in the East.

Lower Rates to the East.

Commencing August 1, 1888, the California Southern Railway (Santa Fe route) will sell round-trip tickets to most of the principal Eastern cities and return at greatly reduced rates. Kansas City and return, $80; St. Louis and return, $92: St. Paul and return, $95, etc. Tickets are first-class, good for six months, allowing stop-over at pleasure in both directions.

IT SURELY HURTS,

When It Takes Four Columns Of Print To Answer Us.

The little pricking we inflicted on the "Great Soap Bubble" last week caused him to rush into four columns of newspaper print to prove that he can undersell shoe houses, and that his dry goods store shoes are worth wearing. With customary brazen effrontery he asserts that shoe houses in this city pay $20 to $30 a day rent. That is $600 to $900 a month. Such a statement, like all the balance, Is absolutely Untrue.

No shoe house in the city pays anywhere near such a sum. Our "Great Bag of Windy Chestnuts" claims, because he tries to keep all lines of articles, he can undersell legitimate merchants. As a grand finale to his "Old Curiosity Shop," We would suggest that he add a lager beer saloon and a pretzel factory, so that his goods can be given away; and, if that won't answer, let him grease himself with some three-cent soap and slide off to fresher fields and pastures green.

Here are our claims to Honesty, Popularity And genuine bargains.

Edwin C. Burt's fine shoes, the peerless leaders, $5.

No shoddy dry goods store goods.

Men's velvet embroidered slippers, 60 cents.

That is, you are trying to pick up a little flesh, to regain some of your wonted color, to accustom your stomach to more solid nutriment than its recently enfeebled condition permitted you to take. How can you accelerate your snail's pace healthward? We are warranted by concurrent testimony in affirming, that if you will use twice or thrice a day Hostetter's Stomach Bitters, an enabling medicine of long ascertained purity and tonic virtues, that you will be materially aided. It promotes a flow of the gastric juices, and helps the system to assimilate the nourishment of which it stands so much in need. It remedies a tendency to constipation without convulsing the bowles. The liver it stimulates to renewed activity, safely promotes the action of the kidneys and bladder, and annihilates malaria and rheumatism at the outset.

Dr. Bo-San-Ko

In his new discovery for Consumption, succeeded in producing a medicine which is acknowledged by all to be simply marvelous. It is exceedingly pleasant to the taste, perfectly harmless, and does not sicken. In all cases of Consumption, Coughs, Colds, Whooping Cough, Croup, Bronchitis, and Pains in the Chest, it has given universal satisfaction. Dr. Bosanko's Cough and Lung Syrup is sold at 50 cents by C. H. Hance, 79 North Spring street.

How refreshing, how like a benediction sleep comes to one who, for tiresome days and wearisome nights, has tossed about seeking the rest he could not find; burning with fever or shaking with cold, utterly worn out and prostrated. Do you ask what wrought this wonderful change? Frese's Hamburg Tea, the great blood purifier. It is wonderful in its effects, restoring the appetite, and the loss and waste caused by disease, like magic. Keep it by you.

ICE DEPARTMENT.
C. E. TIBBETTS, Superintendent.

The quality of our ice is superior to natural ice in purity. The water of which it is made is taken from a deep driven well, is first boiled, then filtered, and thus is absolutely free from all impurities. It is frozen evenly and solid, and will last 25 per cent. longer than natural ice. Actual tests will always prove this, and scientific men have long ago demonstrated and now admit it.

We are now prepared to furnish residences, and on application by postal card or otherwise, our canvasser will visit and arrange for delivery. It should be generally taken, so we can have paying routes. By using refrigerators and taking 50 pounds at a time, much can be saved in price, and as it will keep better in large pieces, it is a saving in all ways.

English Views on the Tariff.

If there be a common-sense meaning to the claim of the Republican press that public opinion in Great Britain favors the election of Cleveland and Thurman because of the tariff policy of the Democratic party, it is that a reduction of the import tax on foreign goods will open the United States as a market to British manufacturers. But this claim falls to the ground when it is considered with reference to the exact facts of the Mills bill. The raw material for the manufacture of such goods as the English have to sell is admitted free, or nearly so, under the provisions of that measure. The present tax upon that raw material is from 47 per cent. upwards. It is needless to say that American manufactures, handicapped by a tax on raw material to that extent, cannot compete in the markets of the world with English goods made from raw material free from tax. But the Mills bill, while it empancipates American manufactures from the oppressive tax on raw material, lowers the tariff rate on imported goods made out of this liberated raw material, and it is therefore claimed that this will open the door to British articles. We do not see how this position can be logically maintained. If the American manufacturer is relieved of the enormous tax he now pays upon raw material, ($30,000,000 in 1884, according to Secretary Manning's report,) he can certainly produce his goods cheaper to the extent of the abolished tax. The English manufacturer would therefore be no nearer capturing our market then than now. The reduced tariff on made-up goods would avail him nothing when he would meet the American manufacturer with a reduction corrresponding to the reduction of the tariff on the made-up goods. Indeed the meed of protection afforded the American manufacturer by the reduced tariff on foreign goods, and his ability to produce his goods a great deal cheaper, would place him not only beyond the reach in our home market of the foreign manfacturer, but would enable him to become a competitor with the English manufacturer in the neutral foreign markets which the latter now almost wholly monopolizes. Here is where sensible Englishmen see that the success of the Democratic policy is not only counter to their interests, but an element of extreme danger to them. According to the last census report, Great Britain sold $51,000,000 worth of goods to Mexico, Central America and the South American States in 1880, against less than $4,000,000 of the same lines of manufactures sold by the United States. These are markets that are naturally and geographically ours, and which would be ours under a sensible and statesmanlike tariff policy. With the raw material for these manufactures free, there would be nothing to prevent us from more than dividing this immense trade with Great Britain. If the cost of labor is higher here than in Great Britain so is the production of that labor greater in proportion to the cost than it is in England. The testimony adduced before the U. S. Senate Committee in 1883, and that of all the reports of the Labor Commissioners of the manufacturing States, is to the effect that American operatives are one-third more effectual in results than English operatives. This would place our manufacturers easily on a par with British manufacturers as far as the cost of labor is concerned, and with the release of the raw material from the import tax they would have an equal field in the markets of the world with the English manufacturers. Is it to be presumed that thus placed on an equality, the sagacity, enterprise and energy of the American merchant would not find means to successfully compete in foreign countries with British merchants in disposing of our goods? If a policy which is destined to produce this result is one which commends itself to the British favor, then John Bull's good sense has greatly deteriorated.

But it is not true that sensible Englishmen do not appreciate the danger to their interests of the Democratic policy. Notwithstanding extracts taken here and there from obscure English journals applauding the Democratic policy, such papers as the Manchester *Guardian* and the Leeds *Mercury* are alive to the dangers of American tariff reform, and send out unmistakable notes of warning to their people; and whilst some of the brainless littérateurs of Cocaigne may grow jubilant over the absurd idea that English manufacturers may successfully invade the American market under the proposed tariff reform, such enlightened public men as Gladstone have a correct conception of the danger ahead when the Democratic policy shall prevail. In 1881 that distinguished statesman addressed the manufacturers of Leeds at their annual banquet, and in the course of his speech significantly said:

I will say this, that as long as America adheres to the protective system your commercial supremacy is secure. Nothing in the world can wrest it from you while America continues to fetter her own strong arms and hands, and with these fettered arms is content to compete with you, who are free, in neutral markets. And as long as America follows the doctrine now known as those of "fair trade," you are perfectly safe, and you need not allow any of you, even your lightest slumbers to be disturbed by the fear that America will take from you your commercial supremacy.

These are the words of a man who has thoroughly digested the subject to which he is speaking. They express the rooted ideas of a logical mind, one experienced in public affairs and familiar with the trends and reaches of public policies. As they were uttered in 1881, when there was no immediate probability that the Democratic tariff policy was imminent of success, they could not have been intended to influence a Presidential election. They were solemn words addressed to Englishmen to warn them of a lurking danger to their interests—a danger which is now on the eve of being realized.

The Proposed City Charter.

We have received a revised copy of the Charter to be submitted by the Board of Freeholders to the city. The Board has now almost finished its labors, and the Charter will receive its final touches in a few days and be made a complete instrument. The document as a whole is such as should satisfy the average judgment. It is true that no one individual will be satisfied with every part of it; but the measure of merit to an instrument of this kind is to be considered with relation to its most important provisions. If these are, on the whole, wise and judicious—if there be no radical error of principle or general error of policy characterizing them, and if the tendency of the instrument in all its articles is to meet the wants of the community in their fundamental legislation, then a fair judgment would decide in its favor. There is less fear to the public interests from proper power liberally granted than there is from a parsimonious retention from the political corporation of power that may be occasionally and at rare exigencies required. It is not in the excess of authority granted to a corporate body of a municipal character that there is danger, for there are always powers and influences in a Democratic form of government which can restrain tyrannical tendencies and prevent public bodies from stretching their organic powers; but there is no way in which a municipality can accomplish objects of great and pressing corporate need, unless the power exists in its charter to authorize it to carry them out. Therefore we have a positive and effective check upon the undue exercise of power whilst we have no authorization for doing in an emergency that which we ought to do. Powers granted may be used, subject to the discretion of the legislative depertment. If they are attempted to be used in an arbitrary or unpopular manner, the check of public opinion will successfully interfere. But if a great public improvement is to be made, or other matter of urgent and unforeseen necessity is to be carried out, unless there be a grant or implied grant of power to do so in the charter, the city is helpless. In the instrument under review, we find that the Freeholders have made liberal provision to take the city out of its infantile garments and place it in position for a robust and advancing career.

The charter provides for the division of the city into nine wards, with the intersecting line running through Main street. Each ward is entitled to one Councilman, so that we shall have a Council which will be neither too large or too small. It is a fair compromise between the present fifteen and the five that were proposed in the rejected charter. The term of the elective offices is to be two years. The Mayor, with the confirmation of the Council will have the appointment of four members of the Board of Health, the Directors of the Public Library, four Police, four Fire and four Park Commissioners; a Superintendent of Bridges, a Water Overseer and a Sealer of Weights and Measures. This restricts the patronage of the Mayor, perhaps more than we would like to see it restricted. But where it takes appointing power from the Mayor it gives it to Boards of Commissioners, and leaves to the people the selection of all the important officers who are to administer their affairs. This is Democratic—this is right. The great objection to the lately defeated charter was that it took too much power from the people and gave too much to the Executive. It would be a nice thing to determine exactly where the line should be drawn; but we believe we make no mistake when we say that under our institutions, if there is to be any moving of the line, it is towards the people and not from them. The salaries of the following officers are fixed in the charter, those of all others are to be fixed by the Council: Mayor, $3,000 per annum; each Councilman, $1,200 per annum; City Clerk, $2,400; Auditor, $3,000; Assessor, $2,400; Treasurer, $2,400; City Engineer, $3,000; Attorney, $3,000; Superintendent of Buildings, $2,000; Street Superintendent, $3,000; Chief of Police, $3,000; Health Officer, $2,400; Tax and License Collector, $3,000.

These are good salaries, and the city will have the right to look for efficient and faithful service from the officers in return for them.

We shall take occasion before the instrument is finally released from the Board of Freeholders, to carefully go over the provisions of the Charter. In the meantime, our knowledge of the document, and the fact, of which we are aware, that it was built up and bettered from the lately defeated charter satisfies us that no very objectionable provision will be found in it.

The County Convention.

The Democracy of the County of Los Angeles may well feel a justifiable pride in the body of men who represent the party in the County Convention now in session in this city. It is a thoroughly representative gathering of substantial citizens. Business interests of all sorts are represented. There is a large sprinkling of lawyers of excellent standing in that profession. Farmers and mechanics make up a large percentage of the delegates. The country has particularly covered itself with glory in the really honorable character of the men sent in. They are intelligent to a high degree, and they are men of whose integrity there can be no question. The Convention is a decidedly independent body. The delegates evidently came into the Convention utterly untrammeled. They came in the interest of no person, but to vote for the man best fitted for the office. It was pleasant too, to see how strong a feeling was developed in favor of fair play on all contested points. The delegates were quite prepared to take up the cudgels to good purpose in defense of any person who could show he had suffered injustice in the caucus or at the ballot box.

The ticket so far as nominated is notable strong. People who know the gentlemen in question will readily acknowledge that this is not merely campaign ammunition that we are manufacturing. The judges who head the ticket are able and earnest lawyers. They have been tried as judges and they are vouched for in all respects by the entire bar of Los Angeles. Judge O'Melveny, Judge Hutton and Mr. Kendrick are a tower of strength at the head of the ticket. Mr. Parcels, the nominee for County Clerk, is an old resident of the county. He has had much experience to fit him for the office and his name will draw votes to the ticket from all sides. For Recorder a sterling young Democrat of Pasadena, Mr. George Herrmann, has been named. He is most capable in all requirements of the office. He is well known and justly popular. For Auditor, Mr. C. E. J. White won the prize. He is a Democrat of life-long standing. It is safe to say he never kicked over the party traces since he cast his first vote. He is known in all parts of the county, and no one knows anything but good of him. He is well qualified to serve the county in the capacity of Auditor. For Tax-Collector the choice of the Convention is Mr. Omri Bullis of Compton, an old-timer and the present incumbent. For the important office of District Attorney Judge J. R. Dupuy is in the field. He has been in that office for some years, and stands without question before the people of the county as a man, as a gentleman, as a lawyer. He is seeking to be elected to an office second to none in its importance. His opponent on the Republican ticket is notably weak, and Judge Dupuy will beat him out of the field. The last nomination made was that of Mr. T. E. Rowan for Sheriff. He was the choice of the country delegates, and their instincts are always good. Mr. Rowan's name will go out to the Democrary of the county to-day and it will be greeted with cheers at all points.

There was quite a contest for this office, four excellent men being before the Convention. Mr. Rowan has a little knack of always getting anything he seeks, so there need be no surprise that he beat even such men as were pitted against him. He will beat the Republican nominee for Sheriff so badly that our friend Martin Aguirre will wish that in a political sense he had never been born. Rowan has never been defeated when he has run for office, and he will not be this trip.

THE History of the United States, compiled by Fred. H. Clark, a native Californian graduate of the State University and Principal of the Los Angeles High School, has been issued out of the State Printing Office. The mechanical make-up of the book and the binding and material used are a credit to the State department that has performed the work. The print is clear on good paper, and the engravings, executed by McKeon, an artist whose work compares with the best, are exquisite productions. The arrangement of the history is sequential and excellent for a text book. Of course, in a work of 432 pages, the History of the United States, brought down from the discovery of America by Columbus, must be almost microscopically synoptical. The condensation, however, of the early period is so judiciously made as to give the pupil all the salient points in a way that will afford him a fair general knowledge of the important events. Considerable space is devoted to California, its settlement, progress and public men. As a text book, from a mere cursory examination of it, we should pronounce it equal to the wants of the public schools. We shall, however, reserve our final judgment upon the detail of its contents until we have had the opportunity of giving it a critical reading. As to the material used in its manufacture and the mechanical make-up of the work itself, we have no hesitation in saying that it is equal to any of the best standard school books published in the East. The State is doing a work of great and lasting benefit to popular education by supplying the public schools with text books.

Fisheries Treaty Rejected by the Senate.

OTHER CONGRESSIONAL NEWS.

The Pilgrimage of "Ah Ben" and the "Old Roman"—McKinley Talks Protection.

[Associated Press Dispatches to the HERALD.]

WASHINGTON, August 12.—In the Senate this morning Morgan concluded his speech on the Fisheries treaty, after which the Senate proceeded to vote on the treaty, the first vote being on Gibson's motion looking either to the amendment of the treaty or arbitration; rejected by a strict party vote—yeas 29, nays 31. The next vote was on the amendment offered by Gray to Article 11, providing that on all occasions facilities be accorded United States fishing vessels in Canadian ports for the purchase of casual or needful provisions and supplies; rejected—yeas 28, nays 30. The next vote was on the resolution of ratification, requiring two-thirds majority. The resolution was rejected—yeas 27, nays 30.

After the Fisheries treaty was disposed of Senator Stewart made a personal explanation in regard to the charges that he had introduced a measure in the interest of timber thieves.

Stewart denies the charges and said his amendment was intended to protect the people of Nevada from special persecution.

Morgan said he proposed to ask the Senate to-morrow to proceed to the consideration of the bill relating to the debt of the Union Pacific Railroad Company.

Plumb—Is it your purpose to bring it up for the purpose of addressing the Senate?

Morgan—No, for action.

Plumb—I hope the bill will not be pressed at this session, I have an amendment of very important character to move to it, and shall ask the Senate to let it go over.

Platt—The bill for the admission of the State of Washington has been on the calendar for a long time as unfinished business. I must insist that its consideration be proceeded with without delay. Then I ask that the bills for the admission of Northern Dakota and Montana be disposed of.

The House amendment to the Chinese Prohibition bill was concurred in and the bill goes to the President.

The Conference report on the Naval Appropriation bill was agreed to.

The Senate then passed the sixty-three private bills upon the calendar, and after an executive session adjourned.

THE HOUSE.

WASHINGTON, August 21.—Hooker of Mississippi, introduced a bill changing the time for the assembling of the fifty-first and subsequent Congress to the first Monday in March each year, instead of the first Monday in December. Referred. The House then went into Committee of the Whole on the Deficiency bill.

A discussion of the French spoliation claims section was resumed, but without concluding the debate the Committee rose and the House proceeded to a consideration of the resolutions accepting on behalf of Congress the statues of Richard Stockton and Phillip Kearney, presented by the State of New Jersey to be placed in Statuary Hall. The resolutions were adopted and the House resumed consideration of the Deficiency bill. No action was taken and the House adjourned.

GEORGIA CHAUTAUQUANS.

Hon. Wm. McKinley Addresses Them on Protection.

ATLANTA, Ga., August 21.—A heavy rain storm deterred many people from going to the Georgia Chautauqua Assembly to-day to hear Hon. Wm. McKinley speak on the subject of protection. McKinley was introduced by Judge Van Epps.

After acknowledging his thanks to the Piedmont Society for the courtesy and cordiality of their invitation, Mr. McKinley at once waded into the discussion of the Tariff question. He began by quoting from a speech delivered by Hon. J. Randolph Tucker, of Virginia, in the House of Representatives, May 18, 1878. Mr. McKinley said Tucker's definition of a revenue duty was a fair and frank one, and he accepted it. A revenue tariff, he went on to say, is therefore such a one as will produce the largest revenue from the lowest duty. The lowest rate of duty will encourage importations, diminish home production and inevitably increase the revenues; it will of necessity check competition at home and send our merchants abroad to buy; it affords no protection, not even incidental, for the very instant you discover that such a duty favors the home producers, that instant you discover that importations and revenues are checked, and that our own producers are able to control the home market, or a part of it. A revenue tariff is inconsistent with protection; it is intended for wholly different purposes. It loses its force and character as genuine revenue when it becomes to any extent protective. It has but one object; it can have but one effect—that of opening up our markets to the foreign producer, impoverishing the home producer and enriching his foreign rival.

The speaker then referred to England as being more nearly a free trade country than any other country, and he then made a statement concerning that country's dutiable articles. Passing on, he said there was another theory of taxation, and it was one which he believed essential to American development and National prosperity, though it was based upon the exactly opposite principle. It permits all articles of foreign production, whether of field, factory or mine, except luxuries only which we cannot produce in the United States, to enter our ports free and unburdened by custom-house exactions. The duty is to be imposed upon foreign competing products, that is, products which, if brought into this country, would contend with the products of our own soil, our own labor and our own factories, in our own markets. Under this system if the foreign producer would enter our market with a competing product, he must contribute something for the privilege which he is to enjoy, and this something in the form of duties, goes into the Treasury, furnishing a revenue to the Government, and these duties operate to protect the joint products of labor and capital against like foreign products.

A thorough analysis on the protective side of the question here followed, in which quotations from Democratic and and Republican sources abounded. Tariff legislation was followed up from the birth of the American Republic to the present time; the industries were paraded with words of comment and criticism. He closed his speech in the following words: Men of Georgia, in this great industrial question there should be no North or no South. To the united people of every section has been intrusted the interests of our country—our whole country. To others has been confided the care of other nations and other people. We will not interfere with them; we bid them not interfere with us. My fellow citizens, in this conflict, influenced by patriotism, National interest and National pride, let us be Americans.

HARRISON'S TRIP.

Ben Gets a Move on Himself and Goes to Toledo.

INDIANAPOLIS, Ind., August 21.—General Harrison and party left this evening for Toledo.

ALONG THE ROUTE.

PERU, Ind., August 21.—The first demonstration of any kind along the route occurred at Kokoma, fourteen miles from Indianapolis where a couple hundred workmen and railroad employees had congregated, awaiting Harrison's arrival. They cheered the General and went to the rear platform and shook hands with him. The General made no address. Just before the train arrived at Peru, it stopped at the shops of the Lake Erie and Western Railway, and a hundred or more workmen in their aprons and with soiled hands, ran out to greet the General, who stepped down in their midst and shook hands during the brief stop. At 10:30 the train pulled into Peru, where a crowd of nearly a thousand people greeted the party. It was with a great deal of difficulty that the General made his way to the waiting room of the depot, where he received the people. The party were compelled to wait here nearly an hour and a half, and after shaking hands all around, General Harrison sought the retirement of the railroad office.

AT TOLEDO.

TOLEDO, August 21.—General Harrison and party reached Toledo at 4:30. They were received by the local Committee on Reception and escorted to carriages. Upon a platform were two hundred veterans of the late war who saluted and cheered as the General passed. The party moved through the principal streets to the residence of Mr. Cummings, whose guests the candidate and his wife will be. A reception to General Harrison was held at 8 o'clock this evening and was attended by large numbers. Governor Foster was speaker. In the meantime a local club, in uniform and with burning torches, numbering 600 in all, escorted General Harrison to the meeting. Chairman Brown of the local committee introduced General Harrison, who then made a lengthy speech, which was enthusiastically received.

IMPORTED LABOR.

Testimony Before the Congressional Committee Yesterday.

NEW YORK, August 21.—Louis S. Samuels, a dry goods importer, was the first witness before the Congressional Investigating Commission this morning. He has a contract for supplying mail and coin bags for the Government. To do this he employs 150 hands. On being pressed by Congressman Spinola, witness acknowledged that the majority of his workmen are Italians.

The committee then examined Samuel Krentz concerning the importation of musicians under contract. He admitted that he had brought six musicians from Bavaria under contract, but did not hold the men to the contract after it was against the law.

Immigration Commissioner Chas. W. Tainter appeared before the committee and called its attention to the provision of the law by which the Secretary of the Treasury is empowered to enter into contract with Governors of States and other local authorities for carrying out the provisions of the Contract Labor law. He said that no such contract had ever been entered into between the Secretary of the Treasury and Governor Hill or any other official of this State. Hence the Immigrant Commissioners do not feel it their duty to look after the observance of the law in this respect.

THE OLD ROMAN.

His Journey Through Ohio and Michigan.

TOLEDO, August 21.—Judge Thurman and party left for Port Huron this morning by steamer on the Detroit river.

DETROIT, August 21.—Judge Thurman and party left Detroit for Port Huron on the steam yacht Pickett this afternoon, amid the hearty cheers of three hundred people who were on the wharf. Hon. S. S. Cox, who was expected to speak at Port Huron, will be unable to be present, but speeches will be made by other Congressmen who are with the party, and speakers from various parts of Michigan. Three stands have been provided and three meetings will be held at the same time.

Bayard Very Glum.

WASHINGTON, D. C., August 21.—Secretary Bayard says he considers the action of the Senate in rejecting the Fisheries treaty a misfortune, but declines to be interviewed in regard to the future course to be taken by the Government in the matter.

Eastern Echoes.

At Jacksonville, Fla., five new cases of yellow fever and one death were reported on Tuesday.

S. R. Post, a grain dealer on the New York Produce Exchange, is unable to meet his obligations. He is short 6,000,000 bushels of wheat and his losses are $750,000.

The dissatisfied Sioux Commissioners at Standing Rock have gathered up their official robes and are ready to depart for the lower agencies, where they are in hopes of meeting with better success.

The Sheriff of Cook county, Wyoming, arrived at Joliet, Ill., Tuesday night with Jim G'Connor, a horse thief, sentenced to three years imprisonment. While coming through Iowa on a fast train, with his legs and hands ironed, O'Conner jumped through the car window and tried to make his escape. The train was stopped and he was quickly captured.

Foreign Flashes.

It is expected that the wheat crop of India will reach 260,000,000 bushels of 62 pounds each. This will insure a good increase in the quantity exported.

The Emin Bey Relief Committee have received a telegram stating that Major Barttelot, with three other whites and 545 natives, left Yambunga early in June with supplies for Stanley.

The customs authorities at Toronto, Ont., have seized three Chinamen who arrived from Vancouver, by authority from Victoria. It was telegraphed that they were contraband, having entered the country without paying duty. A fellow-countryman guaranteed their appearance when called for, and they were paroled.

Cowboys Versus Shepherds.

ALBUQUERQUE, August 21.—The cattlemen and sheepmen living in the Tonto Basin, beyond the Arizona line, are again pitted against each other and the trouble likely will be desperate.

THE STORM-SWEPT EAST.

The Upper Ohio Floods Renewed.

THE DELUGE OF JULY OUTDONE.

Cyclones on the Eastern Shore—The Southern Tornado—Inundation at the Hub.

[Associated Press Dispatches to the HERALD.]

PITTSBURG, August 21.—It has been raining incessantly since 11 o'clock last night. Since 8 o'clock this morning over three and one half inches of rain have fallen, being the greatest fall in eighteen years. The same reports are coming in from all sections of Western Pennsylvania, Eastern Ohio and West Virginia. At Brownsville, Pa., the water in the Monongahela river is rising at the rate of three feet per hour. Great damage has already been done to the railroads leading from this city. At Uniontown, Pa., four and a half inches of rain fell since early this morning. Redstone creek is higher than ever before. People living in the lower portion of the city are moving out of their houses to-night. Trains on the southwest branch of the Baltimore and Ohio have stopped running.

DISASTER AT WHEELING.

WHEELING, August 21.—A storm which in its disastrous effects rivals that of July 19, last, has been in progress since 3 A. M., and shows no signs of abating. Wheeling Creek in the narrow valley east of Wheeling is a foot higher than ever before, the roads being flooded from two to six feet deep and bridges destroyed. The valley is now one angry flood and the damage can only be estimated by the wreckage that is strewn around. At 3:40 P. M. a piece of a B. & O. wooden bridge from out the Pittsburg division, struck the B. & O. bridge at Main and Sixteenth streets, which was destroyed in July and rebuilt, and it was carried away with the rapidity of a cannon-ball. The stone bridge, 140 feet long, over Wheeling Creek at Main street, fell in with a crash. Over a thousand people had been on the bridge watching the rushing water, but were warned in time to escape. Water, gas and natural gas mains, telegraph and telephone wires and street car tracks were carried down with the bridge. The losses will reach $250,000.

THE GULF COAST TORNADO.

NEW ORLEANS, August 21.—News from Morgan City is to the effect that dozens of houses were wholly or partly unroofed and fully fifty buildings thrown off their foundations. The floating elevator of George Gilchrist was destroyed. Among the heaviest losers of property along the river are the coal dealers. The total loss is $240,000. The steamer Keokuk, at Baton Rouge, valued at $20,000, was wrecked. At Pass Christian trees were uprooted and houses blown down. At Oak Lawn eight cabins and sugar houses were wrecked. At Tom Schoffer's plantation only three houses were left standing. At Franklin eighteen dwellings were unroofed. In the Teche country the damage to cane will exceed one-third of the crop. The steamer Ward, from Truxillo, encountered the storm last night when within four miles of the pass and was driven seventy-five miles beyond Mobile Bay.

HAVOC ALONG CHESAPEAKE BAY.

BALTIMORE, August 21.—The *Sun* has dispatches from various points in Southern Maryland, giving particulars of a severe storm that swept up both sides of Chesapeake Bay. Houses and barns were demolished and two schooners overturned, but no loss of life is yet reported. Entire fruit orchards were destroyed and corn fields were in many instances swept clean.

CYCLONE IN DELAWARE.

WILMINGTON, Del., August 21.—A cyclone passed across the State this forenoon, about six miles below the city, cutting a path 200 yards in width, leveling trees, orchards and outbuildings and doing damage estimated at about $150,000. One person is reported killed. In this city the buildings of Mablow Brothers' iron works were wrecked in an instant. Huge timbers were tossed about as though they had been straws. A man employed in the works was killed by flying timbers.

STORM PATH IN NEW JERSEY.

SALEM, N J., August 21.—A cyclone passed over this section this afternoon. Nearly all the buildings at the Salem Brick Works were swept away. Orchards and growing crops were badly damaged.

HIGH WATER AT THE HUB.

BOSTON, August 21.—A storm struck Boston with great fury at about 3 P. M. Three and one half inches of water had fallen at midnight. In the *Journal* press room the water is within two inches of the press blankets, and a further rise will prevent the issue of the paper.

ANOTHER CONSPIRACY.

A Large Opium Smuggling Scheme Unearthed.

CHICAGO, August 24.—Another gigantic conspiracy was brought to light here to-day. It is an opium smuggling scheme, the extent of which at present writing cannot be approximated, though if the statements made by the Government agents are to be believed, many persons in all parts of the country are involved, and many arrests may be made to-night or to-morrow. To-day Treasury agents arrested a man who registered at the Palmer House as E. W. Brown, of New York. In his room in a house on Wabash avenue, whither he had been traced from the hotel, was found a canvas-bound trunk and 120 pounds of opium. For some time the officials had been looking for a quantity of opium which was thought to have arrived in this city from New York, instead of the Pacific Coast, presumably to dodge the heavy duties imposed upon the drug. For a month a special agent has been engaged in active search for the stuff and about ten days ago a small quantity of the drug was seized at Fort Wayne, Ind. The news of the discovery created quite a stir in the Treasury Department at Washington, and the wires were kept busy with orders and instructions to the Treasury agents here, and at last Agent Tichenor has been sent from Washington here, and has full charge of the case. It was stated to-night that the prisoner was not from New York but from San Francisco, and that he had been known under the alias of C. S. Martin and C. H. Gardiner.

THE SAME OLD GARDNER.

For many years the prisoner was in the Government service, and was considered one of the shrewdest operators. Less than a year ago he left the service, and last February he was arrested in Ogdensburg, N. Y., on the charge of smuggling opium. He was afterwards released, for reasons which were never ex-

plained. From Ogdensburg Gardner was traced to San Francisco, and thence, about two months ago, back East. In Chicago he had a woman as a companion, but the detectives refused to say whether she is under arrest or not.

ST. LOUIS, August 21.—St. Louis 7, Brooklyn 0.

BASEBALL BY GASLIGHT.

INDIANAPOLIS, August 21.—An experimental base ball game by natural gas to-night resulted in a pronounced success. Every portion of the ground was readily discerned. A portion of the scheduled Chicago series will be played at night.

Military Maneuvers Begun.

BERLIN, August 21. — The military maneuvers between Berlin and Spandau began to-day, the Emperor commanding the troops. The chief feature of to-day's maneuvers was a sham sortie from the Spandau fort, which the Emperor's troops brilliantly repulsed. The Emperor was accompanied by a splendid suite of German foreign officers. The Emperor has sent to the Fourth battalion of the Russian Karuga regiment, a standard ribbon with an autograph letter, explaining that his grandfather before his death, expressed the desire to send it as a memento of his seventy years colonelship of the regiment.

What They Think of It in England.

LONDON, August 21.—The *Daily News* in commenting on the rejection of the Fisheries treaty by the United States Senate says: It is another example of the many evils which the disunionists are bringing upon their country.

The *Daily Chronicle* says: This unworthy attempt to make party capital of a question which might involve two great countries in war, is not likely to endear the Republican party to the majority of the native born Americans.

No Reduction Asked For.

SACRAMENTO, August 21.—Santa Clara and Tulare are the only counties which have not as yet applied to the State Board of Equalization for a reduction of their assessment.

Boys to Replace Chinese Laborers in the California Fruit Orchards.

[Associated Press Dispatches to the HERALD.]

SAN FRANCISCO, August 21.—An accident occurred in the building at No. 105 Stockton street, to-night. Dudley Ayer, a surveyor, A. Lenstein, a piano tuner, Geo. Ling, a teacher, W. G. Steele, a clerk and Walter Adams, an elevator boy, were seated in the elevator of the building on the third floor, when the rope gave way, precipitating the elevator and its occupants to the bottom of the shaft. Lenstein, who was the worst injured received a compound fracture of the left leg, besides being internally hurt. Adams, the elevator boy, had his left ankle broken and received bruises on the head and body, and Ayers had one of his ankles twisted.

BOYS OR CHINESE.

At a meeting of the State Board of Trade to-day the question of employing boys to take the place of Chinese in vineyards and orchards was discussed at length and an address to affiliating boards of trade, improvement associations and citizens of the State generally, was presented by W. H. Mills and adopted. The address sets forth the fact that the experiment of supplying boys to take the place of Chinese promises in a large measure to be a solution of the labor problem in the prosecution of many of our leading industries. It is promoting habits of thrift and industry among our people and disseminating a knowledge of horticulture and agriculture, and encouraging a taste for those pursuits. For over a third of a century in California the wage bills paid by the leading industries of the State have tended to impoverish rather than enrich the Commonwealth.

GRAPE GROWERS AND WINE-MAKERS.

At the regular meeting of the Grape Growers and Wine-Makers Association of California to-day, M. M. Estee stated that when lately in the East, he had bought of a dealer wine which was labeled "California wine," and that it was drawn from a barrel on tap. Though it was claret it was very weak. Such wine of course injured the sale of the pure article. Every wine grower in the State to-day was losing money, for good wine could not be produced for less than 24 or 25 cents a gallon.

At the afternoon session Chas. Krug, of Napa, spoke in favor of drying grapes in order to reduce the production of wine grapes. He moved that a committee be appointed to address a circular to the grapegrowers and winemakers, advising them to dry all their over-production of grapes, distill all inferior wines now in their possession, and to refrain from producing inferior qualities of wine in the future. Carried unanimously and Chairman DeTurk was appointed one of the committee by a vote of those present.

W. M. Braunhal addressed the meeting on the general condition of the wine business. He said great quantities of dried grapes were used in the East during the winters, much of these, however, came from Europe.

THAT NEW TIME TABLE.

Passenger Agent Speers, of the Atlantic and Pacific road, took occasion to-day to deny the story that the new time table of the California Central road was made out regardless of the arrival of Southern Pacific trains into Los Angeles from this city. He says that the Southern Pacific train that leaves this city at 9:30 A. M. is due in Los Angeles at 8 A. M. the next day, and as the California Central train for San Diego leaves Los Angeles at 8:15 A. M. there was ample time for transferring passengers and baggage, provided the Southern Pacific trains were on time.

FRUIT SHIPMENTS.

Accurate figures for the season's fruit shipments over the Central Pacific for the East are not obtainable at the offices of the general freight agent of the company, but the estimate is made that between 550 and 1000 cars have been sent out. For the whole State last year, the shipments amounted to only 1400, and it is believed that the total for the present year will exceed that of last year by nearly 1000.

QUARANTINE COMMISSION.

The Secretary of the Treasury has appointed Surgeon Henry W. Sawtelle, of the United States Marine Hospital in this city; Captain John White, of the revenue marine service at Oakland, and Thomas J. Arnold, Collector of Customs at San Diego, as a Board of Commissioners to select the site for a quarantine station in San Diego, under the recent quarantine act. They will commence their duties in about a fortnight.

SAN DIEGO COURTS.

Five Years for Forging a Fourteen-Dollar Check.

SAN DIEGO, August 21.—Otto Brocht, alias James M. Breese, the young man who forged a check for $14 on a Los Angeles bank and tried to pass it at Oceanside, this county, a few days ago, was up in the Superior Court this morning, and pleaded guilty to the charge. He was sentenced to five years at San Quentin.

Jas. Evans, the brute who feloniously assaulted ten-year-old Mina Miller a few days ago, was held by Recorder Monroe this morning to answer before the Superior Court under a bond of $1,000. He was unable to furnish the amount.

Blacks Displacing Whites.

WALLA WALLA, W. T., August 21.—Forty-four men under the command of Detective Sullivan, and holding commissions from Marshal Hamilton, have been sworn as Deputy United States Marshals at Pascoe. Each man is armed with a repeating rifle and revolvers. They left on a special train with, and to protect 300 Negroes, not Italians, just from the East, who are on the way to Roslyn, to take the place of white men in the coal mines.

The Powell Case.

REDWOOD CITY, August 21.—Dr. Powell testified this morning in his own behalf in his trial for the murder of Editor Smith. He swore positively that he was not in the habit of carrying a pistol. Ex-Sheriff Hatch contradicted this statement, testifying that he had seen a pistol in Powell's pocket previous to his shooting Smith. Argument for the people will probably begin to-night.

The Nation's Sharp Shooters.

SAN ANTONIO, Texas, August 21.—The teams of twelve, with two alternates representing the Departments of Missouri, Dakota and the Platte, did preliminary shooting to-day. The match begins on Saturday next, with skirmish firing. It was deemed necessary to the Northern teams to give them three days practice at range owing to the different conditions which obtain in winds, atmosphere, reflection, etc. On Saturday the regular competition will be devoted to skirmish firing.

A FAMOUS MADSTONE.

Found in a Dog's Stomach, It Has Cured Many a Dog Bite.

William Burton, of No. 4204 Wentworth avenue, has a madstone. The whole Burton family speak of "The Rock" with a keen sense of appreciation of its merits. It would be entitled to respect if only for its age. Mr. Burton is seventy years old, but regards himself as a mere infant by comparison. His father had it before him, and tradition has it that "The Rock" has been in the family a century or more.

"The Rock" is a madstone of great fame. None of the family can tell how they came to get it. Family tradition says it was found in the stomach of a barren doe. The stone is far from imposing in appearance and was possibly created to illustrate the proverb, "Handsome is that handsome does." It is, perhaps an inch in diameter and half an inch thick. It strongly suggests bone and is light in color and weight. It is perforated with natural circular holes, eight or ten in number, arranged in parallel rows. These holes are about a sixteenth of an inch in diameter, are porous about the edge, and extend through the stone within an eighth of an inch. The circumference is ragged as though the stone was originally considerably larger and had been broken off on the edges. For convenience sake a wad of beeswax is attached to the back which holds on a small wire handle. When the stone is used the perforated suface is applied to the wound. It proceeds to draw upon the wound, and as soon as it becomes saturated or "clogged" it is put in boiling water. Mr. Burton has used milk for this purpose, but finds water more satisfactory for cleaning purposes. This operation is repeated as many times as is deemed necessary.

A recent case was little Gertie McGrath, four years old, the daughter of a neighbor. In her case the stone was applied immediately, and there is no pretense that the dog was mad. A small boy named Abets, living at No. 4430 Tracey avenue, was also treated. The stone was applied forty-eight hours after the boy was bitten, and his hand was badly swollen. It was applied three times and reduced the swelling entirely. This was several weeks ago, and no bad results have followed, although the dog was supposed to be rabid. A little Burke boy and a little McNiff boy living on Root street were among others treated.

"I won't say that 'The Rock' has cured hundreds of cases of hydrophobia, because it isn't possible to say that the dog is mad in every case," said Mr. Burton. "But I will say for it that never has the patient suffered any bad consequences from the bite when it has been applied. —[Chicago Times.

Nourished Through Her Skin.

Miss Annie Cole, a young woman living in Clay street, near Jefferson, died the other day after a protracted illness, having been nourished for several months preceding her death through the pores of her skin. The case is an extremely unusual one, and has attracted considerable attention. Some time ago, when it was found impossible to administer nourishment to the invalid through the usual channel, every device was resorted to that she might be saved from death by starvation. The stomach rejected all food, and even the liquid gruels and other substances which were introduced did not remain in the stomach long enough to impart nourishment. Miss Cole was emaciated and on the point of death when the attending physicians noticed that the action of the pores of the skin was normally healthy. As half of the digestible matter is emitted through the pores of the skin, an effort was made to introduce nourishment in that way. A mixture of oil and grease was composed and applied externally. The heated skin rapidly absorbed the nutriment, and the patient showed signs of renewed vigor. After each of these applications the skin was carefully cleaned, and in this way Miss Cole lived.—[Pall Mall Gazette.

Notes of Crime and Casualty—A Murderer's Coolness on the Scaffold.

[Associated Press Dispatches to the HERALD.]

NEW ORLEANS, August 21.—Friday evening a fresh easterly wind set in, and increased in force with showers until Saturday morning. It slackened then until evening, when it strengthened and and blew a gale with a great downpour of rain until Monday noon. The rainfall was eight and a half inches. The wind was blowing sixty miles an hour when the anemometer was broken. Great damage was done in the city and throughout the sugar belt from Baton Rouge to the Gulf, including the rice section. Much sugar cane and rice was blown flat on the ground. Many sugar houses and dwellings were damaged. The damage to the sugar crop is estimated at from 10 to 20 per cent; to rice at from 20 to 50 per cent. In the city many houses were unroofed, fences prostrated and trees uprooted. The heavy rain on the night of the 19th for a time flooded the entire city. The rear portion of the city is still inundated. The city was in darkness Monday night. The greatest damage about the city was done on the river front. Fifty coal boats were sunk. Several small steamers were sunk or damaged. The Louisville and Nashville road was submerged for twenty miles, with many washouts. The loss on the coal barges sunk is estimated at $300,000. Crops along the river for a distance of over twenty miles are entirely destroyed. A number of vessels, overdue, undoubtedly encountered the storm in the gulf.

At Donaldsonville school houses and a church and some residences were destroyed. The St. Joseph Academy was also demolished and two of the Brothers seriously injured. Huge trees were snapped off and twisted from the ground and sent whirling through the air, causing great destruction.

MOBILE, Ala., August 21.—The southeast gale which began Saturday afternoon increased to a velocity of seventy-five miles an hour. The waters of the Gulf were driven over the low lands both east and west of here, and the railroad tracks are badly flooded. The south part of the city is inundated and wires are down everywhere.

PHILADELPHIA, August 21.—A hurricane of terrific force struck the steamship British King, off the Grand Banks, injuring six of the crew.

VIENNA, August 21.—A thunderstorm in the vicinity of Kornenburg, a village near this city, destroyed one hundred houses and seriously injured fifty people. Other villages were submerged. Three persons were killed at Aspen, and twelve at other places.

An Indifferent Culprit.

NEW YORK, August 21.—Dan Lyons, the murderer of the athlete, Joseph A. Quinn, was hanged this morning in the Tombs at 7:15 A. M. He was pronounced dead in four minutes. Twenty minutes later the body was cut down and incoffined, and was buried this afternoon. Lyons was utterly unconcerned throughout. He slept like a child last night, ate a hearty breakfast this morning, and chatted and joked with the officers until the time for the procession to the gallows. His indifference to the awful fate before him was not bravado, neither was it religious enthusiasm. It was due to the fact that he either did not or could not realize his position. Last night he even insisted on inspecting the gallows and expressed the opinion that the counter weight was not heavy enough. Early this morning he took part in religious services.

Appropriations and Surplus.

WASHINGTON, August 21.—The joint statement of the House and Senate Appropriations Committees, August 15, shows a grand total of appropriations of $428,269,520.55, an excess over last year of $64,054,730.81. The total estimated revenue for 1889 is $440,563,734.32. Since the 15th the Fortifications bill has been reduced two and a half millions, and probably three millions more will be taken from the Army bill. This would make the probable surplus next fiscal year something over seventeen and a half millions.

Meehan Knocked Out.

SAN FRANCISCO, August 21.—Last night Billy Meehan, the light-weight champion of the Pacific coast, stood up before Tom Meadows, the light-weight champion of Australia, for seven rounds, Queensbury rules, and was knocked out at the opening of the eighth round. Meehan made a plucky fight, but it was easy to see at the outset that he was not Meadows' equal as a pugilist. The contest was for a purse of $500.

Yellow Jack.

WASHINGTON, August 21.—Surgeon-General Hamilton has been informed by Dr. Guiteras, that the camp at St. Mary's, Fla., is now ready for 200 persons. Dr. Sutton at Way Cross, Ga., says the time has arrived for the detention of all refugees from Jacksonville.

JACKSONVILLE, Fla., August 21.—Two new cases of yellow fever; no deaths.

Slipped Under the Wheels.

MERCED, Cal., August 21.—Early this morning a Chinaman employed by the Southern Pacific, while attempting to jump a freight train, slipped and fell, the cars passing over both legs near his thighs; though horribly mangled he is still alive.

Baldknobber Chieftain Killed.

SPRINGFIELD, Mo., August 21.—Captain Nat. Kinney, the famous chief and founder of the Baldknobber organization, was shot and instantly killed at Ozark to-day by Bill Miles, another Baldknobber. Miles escaped.

A New President.

LONDON, August 21.—Judge Reitz has been nominated for President of the Orange Free State, to succeed Sir John Brandt, deceased.

Malt House Burned.

SOUTH RONDOUT, N. Y., August 21.—Nieklinger, Schmidt & Co.'s malt house and other property burned this morning. Loss, $100,000.

Russian Wheat.

ST. PETERSBURG, August 21.—The prospect for summer wheat is promising; the yield of winter wheat will reach the average.

Children Cry for Pitcher's Castoria.

The Salt Lake Regatta.

CHICAGO, August 21.—B. Clover, of the the Farragut Boat Club, has completed the arrangements for the coming two days regatta on Salt Lake, Utah. Twenty of the best oarsmen from the clubs in the Mississippi Valley Rowing Association have been selected. They represent the Farraguts and Delewares of Chicago, the Modocs of St. Louis, Sylvans of Moline, Ill., Lurlines of Minneapolis and Owasheanongs of Grand Rapids, Mich. They will leave on Friday at noon and will take fourteen shells with them. There will be four-oared, double and single races each day.

Sports at Newport.

NEWPORT, R. I., August 21.—The annual tournament of the National Lawn Tennis Association opened yesterday, with a large attendance. The Newport yacht race, for the Newport cup, was a fiasco, it being drift throughout, the wind coming only in flukes. The Volunteer crossed the finish at 6:40, followed by the Puritan five minutes later, Fanny J. out of sight.

Guilty in the Second Degree.

SANTA ROSA, August 21.—Joseph Frey, one of the robbers who killed Constable Abe Creigler of Cloverdale while the latter was attempting to arrest them, pleaded guilty to a charge of murder in the second degree to-day and will be sentenced next Tuesday.

Why the Germans are With the Democracy.

EDITORS HERALD—The article of "P. R." in the *Times* of August 12th, is a typical Republican production, pregnant with the ambiguity that characterizes all Republican writings and utterances. It opens with a disclaimer of any intention to arouse race prejudice, and yet before the ink is dry on the first sentence, "P. R." attempts by raking in the ashes of twenty-four years ago to find a smouldering ember that he may, with the breath of malice, fan into flame, and kindle the fire of race prejudice, and in the blind hatred thus engendered to cause his fellow countrymen, now merged into and become a portion of the great American nation, to lend their aid in giving a new lease of power to men who have demonstrated their unfitness to govern in the interest of the people.

The logic of the assertion that "the Germans support the Democratic party because they fear Prohibition success" is somewhat obscure and reflects on the intelligence ond honesty of the German citizens. If they believed that the perverted ideas of free government as now enunciated by the Republican party tended to the happiness and prosperity of our people and the perpetuity of our free institutions, that steadfast devotion to their conviction of right which "P. R." truthfully claims is one of their chief characteristics would impel them to put forth new efforts in its defense. No, Mr. "P. R.," the Germans are not leaving the Republican party because they are afraid Prohibition will succeed, but because they desire to rebuke it for the license it attempts with the credulity of the people; because it evaded every important issue brought forward and coquetted with every party that has sprung up in the past sixteen years; because it bid for the liquor vote by refusing to incorporate a temperance plank in its platform, and then with the moral cowardice that has characterized all of its acts of recent years, offered a resolution at the last moment to that effect; because it believes in curtailing the privileges of the lower classes and enlarging those of monopolists until the relation existing between them will be that of master and slave; because it believes in a system of government that will foster the growth of trusts and corporations to a point where they will menace the privileges and liberties of our people; because it seeks by a system of wholesale robbery to so centralize capital as to defy the workingman in his just demand for a fair compensation for his labor; because it seeks to bring into this country and naturalize a swarm of almond-eyed heathens to take the place of the mechanic and laborer when he says he can no longer support himself and family on the starvation wages the corporations it has built up offer to pay him; because the Democratic party has been honest and straightforward in all of its dealings and pronounced in its position on all subjects of interest to the people; because it has initiated all the beneficial legislation of the past sixteen years, and had the courage to go before the country on its honest convictions, moulding public opinion rather than following it. The statement that "the Rebublican party has purged itself of the Prohibitionists," reminds me very much of a small boy wrestling with a green-apple colic. The purging unquestionably takes place, but the Rebublican party, like the boy, is a decidedly unwilling party to the performance.

In all candor, Mr. "P. R.," I would like to ask why is your appeal addressed to the German people? Why not to all our citizens? Is it not (your statement to the contrary notwithstanding) a mean, contemptible effort on your part to trade on your nationality? At all events your efforts is simply a compilation of campaign balderdash, culled from some old Republican pamphlet and revamped to fit this occasion. J. W. P.

A CALIFORNIA DISCOVERY.
The parasites, of which we give cut below, discovered by us, are the direct cause of Catarrh and Consumption, also many other diseases.

Magnified 560 Times.

Imagine millions of these animalculæ in the nose, throat and lungs, as well as the minute eustachian tubes leading from the back part of the throat to the middle ear, and you will imagine the misery they can produce. Thousands are swallowed when the patient is asleep, causing kidney and liver trouble, headache, blood poison, general debility, etc. We have a specific for destroying them and expelling the poison from the blood. Use the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC COUCH AND CONSUMPTION CURE to take and the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC LINIMENT to apply, and if the stomach is bad, use the CALIFORNIA POSITIVE AND NEGATIVE ELECTRIC SYSTEM BUILDER it builds up the system and purifies the poisoned blood. They are manufactured from roots, herbs and flowers that grow in California, and are safe for children. They never fail. The Cough Cure is excellent for Coughs Colds, Croup, &c., no child will ever die with croup when this is used. Our Liniment kills pain instantly. See our Trade Mark on every wrapper. Sold by all druggists.

EXCHANGE REVIEW.

NEW YORK, August 21.—The stock market to-day was dull, but the temper of room was still moderately bullish and traders cautious in putting out short lines. The feature of the day was dealing in Lackawanna, which lead the list. In activity and in strength St. Paul was strong and short interest in the stock continued and a large premium being asked for the use of it. The only weak in the list was Illinois Central, which yielded 2 per cent on light transactions. The close was strong at the best prices of the day.

Government bonds were dull and firm.

Petroleum opened strong at 88⅜, but after a slight gain became weak and declined to 86⅛. Supporting orders then caused a rally on which the market closed steady at 88⅜.

Grain Markets.

DOMESTIC.

SAN FRANCISCO, August 21.—There was agitation in grain circles to-day owing to the sudden marked advance in the price of wheat. The market has been strengthening and prices gradually advancing for several days, and this morning spot wheat in the legitimate market reached $1.50 per cental. The quotation for spot wheat a week ago was $1.41¼@1.42½. Speculation was brisk this morning. Buyer '88 wheat opened at $164½, and rose at once to $1.65, with liberal sales. From this figure the advance was gradual until $1.66½ was reached, when there was a slight reaction and the market closed at $1.66. This option sold at $1.57⅞ @1.57⅝. One week ago at the afternoon session of the call board, buyer '88 advanced to $1 68 and closed strong at that figure.

Do You Dream?

Young Man! Are you suffering from any of the errors or indiscretions of youth, causing lame back, tired feeling about the legs, coated tongue, bad taste in the mouth, wind on the stomach, or sour stomach, amorous dreams, vertigo (dizziness), forgetfulness, loss of energy, and pain in the side? These are some of the numerous symptoms of Spermatorrhœa. Let not a sense of false modesty prevent you from seeking relief at once. This trouble will lead to **Loss of Manhood, Insanity or Death.** The undersigned has treated many hundred cases such as yours with never a failure.

Have you contracted any **Private Disease** which you do not wish your friends or family physician to suspect? If so, Dr. Blakeslee will treat you privately and successfully, and guarantee a cure in the shortest time possible. Many cases can be cured in twenty-four hours, if taken in time.

Syphilis (blood taint) whether of recent or long duration, can be entirely eradicated from the system by the use of my vegetable remedies, without mercury in any form. There is no necessity of going to the springs, when you can be cured as quickly and permanently at home.

Are you troubled with Stricture, or any other ailment peculiar to the male sex? If so, relief is at hand. The doctor by his studies and practise in this country and abroad has made himself familiar with all such cases.

Proposals for the Purchase

—OF—

LOS ANGELES COUNTY BONDS.

Sealed Proposals will be received by the undersigned up to Saturday, September 29, 1888, for the purchase of all or any part of one hundred (100) Los Angeles County Court House Bonds, numbered consecutively from one hundred and one (101) to two hundred (200) inclusive of the denomination of one thousand dollars each, payable on the first (1st) day of January, A. D. 1907, or at any time before that date, at the pleasure of the said County, in Gold Coin of the United States, with interest thereon, at the rate of four and one-half per cent. (4½%) per annum, payable semi-annually on the first (1st) day of January and on the first (1st) day of July, of each year.

Said Bonds having been issued in conformity with resolutions of the Board of Supervisors of Los Angeles County, dated September the 6th, A. D. 1886, and of December the 9th and 29th, A. D. 1886, and under authority conferred upon said Board by the provisions of an Act of the Legislature of the State of California, entitled "An Act to establish a uniform system of County and Township Government," approved March 14th, A. D. 1883.

None of said Bonds will be sold for less than face value and accrued interest, nor shall any sale thereof be final or valid until approved by said Board of Supervisors, and the right is hereby expressly reserved to reject any or all aforesaid proposals.

All such bids must be accompanied by a duly certified check to the amount of ten (10) per cent of the bid. Mark envelope "Proposals for the purchase of Court House Bonds."

By order of the Board of Supervisors.

J. A. WILLIAMS, M. D.,

Late of Grand Rapids, Michigan, the noted Specialist in all forms of Female Complaints, also, diseases of young men and old men, and who has made a specialty in these diseases for the past thirteen years.

HOLLENBECK BLOCK,

Cor. Second and Spring Sts., Los Angeles, Cal.

All diseases of the respiratory organs treated by the most improved Medical Inhalations, combined with proper constitutional remedies, for the liver stomach, blood, etc. We are also now using the Compound Oxygen treatment which has such a world-wide reputation in lung and nervous affections.

Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

Over 80,000 cases treated during the past twenty-one years.

CATARRH.

The term Catarrh is applied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent, and is productive of very serious consequences.

The most prominent and characteristic feature is a morbid discharge from the head, varying in its nature at different times. In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent, or muco-purulent, greenish-yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disurbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others, a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with gluish tenacity. Its lodgement embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucus into the throat, so as to eject it by the mouth. This practice, popularly known as "hawking," is characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incustrations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, in time may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities, and then putrifies, giving rise to a stench which is really overpowering and sufficiently fetid to poison the atmosphere of a whole room; and there are others in which all the secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness, or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate.

Sometimes there is pain obstinately fixed in some particular part, as in the temple, on the top of the head, at the back of the neck, or behind the orbits, and occasionally pain manifests itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted, and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other. and often on both, giving rise to a disagreeable, stuffy sensation in the head, and occasioning violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffing quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "nem," more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness for the temporary relief of which they have to swallow frequently. Others, again, speak of a constant bad or nauseous taste in the mouth or throat.

The stomach generally suffers more or less, and becomes weak and irritable, the appetite is capricious, and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times fearful, timid, agitated and inclined to drowsiness and sleep, the memory weakened and permanent impairment seriously threatened.

The mucuous membrane soon becomes morbidly sensitive to unfavorable influences, and in spite of the utmost care becomes affected from the slightest causes, so that a breath of wind upon the linings of the nose or throat, becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse, and involving a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larnyx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the stomach, bowels, kidneys, etc.

By the employment of proper inhalations and Compound Oxygen treatment in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the larnyx and the nasal passages, for air will find its way into the remotest and intricate cavities, where it is utterly impossible to make fluid applications. By these means every case can be cured.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance from business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless, unless both lungs are seriously involved. Even then the inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing can do with the same success.

The very best reference from those already cured.

Samuel White was arraigned before Justice Austin yesterday afternoon on the charge of cruelty to his child, a little fellow eight years of age. The case will be tried to-morrow. It is stated by the complaining witness that White whipped the boy brutally with a blacksnake whip. White denies that he was cruel to the boy, but admits the circumstance of the whipping.

A very handsome ozier orange cane was left at our office yesterday morning, with the following lines. We will say, by parenthesis, that the stick is a very neat and fine one, and we only wish that the poem came up to the mark of merit of the bâton. Here are the lines:

I came to see you, but in vain,
To give to you an ozier cane
That would support you when you're lame;
But to you here I have to say,
I hope you'll need it not that way;
But have it handy at command
To grasp it tightly in your hand,
And use it on the bad, bad man.

A WOMAN'S WAY.

A Startling Business Proposition.

A little over six weeks ago Mrs. Fowler of 327 Ellis street, San Francisco, stopped in at a leading city druggist's to ask what effect Joy's Vegetable Sarsaparilla, about which she had heard so much recently, would have in cases of dyspepsia and sick headache. She was assured that in most cases it would relieve both. She was, however, so incredulous that finally the druggist gave her a bottle, not to be paid for unless it effected a cure. A proposition so startlingly practical has seldom, if ever before, been made. The following just received is the convincing conclusion, and tells its own story:

San Francisco, February 8, 1888.

DEAR SIR: I write to admit that, notwithstanding my misgivings, Joy's Vegetable Sarsaparilla did all that you promised. I had tried so many prescriptions, to no purpose, that I had come to believe nothing would relieve my dyspepsia and sick headaches, but I have not had a return of either since I commenced taking it. I believe I am permanently cured, but will, out of an abundance of caution, continue to take it regularly for a while yet. You have my permission to make this public, for it is my belief that a remedy that will cure dyspepsia and prevent sick headaches should be generally known. Respectfully,

Mrs. M. Fowler.
327 Ellis street.

To the Public.

The Bituminous Lime Rock Paving and Improvement Company take this opportunity of informing the citizens and property owners of this city that the pavement laid on Main street between First and Third streets is not Bituminous Lime Rock, but is an artificial mixture and not laid by the company. We make this announcement for the purpose of disabusing the minds of those who entertain the belief that this pavement was laid by this company and are disposed to criticise our material as being soft and not suitable for the streets of this city. The only Bituminous Lime Rock Pavement here was laid by this company, and extends on Main street from south line of Third to Ninth street, and on Spring street from Temple to Ninth streets. Bituminous Lime Rock does not become soft and mushy under the heat of the sun, but always remains firm and elastic. We have already laid on the streets of this city about five hundred thousand square feet of this pavement to which we take pleasure in inviting inspection. Very Respectfully yours,

ASSESSMENT NOTICE.

Office of the North Riverside Land and Water Company 86 Temple Block, Los Angeles, Cal.,

Notice is hereby given that at a meeting of the directors of the North Riverside Land and Water Company held on the 18th day of July, 1888, an assessment of six (86) dollars per share was levied upon the capital stock of the corporation then issued, payable immediately to F. C. Howes, the treasurer of the said company, at the banking house of the Los Angeles National Bank, at Los Angeles City, California.

Any stock upon which this assessment shall remain unpaid on the 30th day of August 1888, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 20th day of September to pay the delinquent assessment, together with cost of advertising and expenses of sale.

DRUNKENNESS

Or the Liquor Habit Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquo appetite to exist. For sale by R. W. Ellis & Co. Druggists, 27 S. Spring St., Los Angeles.
